We would like to submit our objection to the change of name of Gillet Crt Casuarina, to Casuarina Way, Casuarina.

We bought our block of land because it was in a cul-de-sac. There was never any discussion that the road was going to be changed and that our road would be a through road servicing the south of the town to central shopping area. We were told that it was the plan to have all traffic use Coast Rd and not have any through traffic in the residential area. We have a young family and being on a busy road was what we were avidly against.

We run a home office and have more than the average household mail and it is inevitable that some mail goes astray. The perfect example of this is your office where we never received the notice of name change due to different 'systems' and your office had our old address even though our rates were correct. We have also experienced this with our insurance company, which caused a great amount of grief even though we had advised of our change of address. There is also the expense of having our mail redirected until all addresses are changed, not to mention the inconvenience and time wasted. Being a small business time is a precious commodity.

As there are only 2 residents on this street and both of us have objected, this would equate to 100% objection.

Regards

Karen and Chris Burke

Attention – Ms Vanessa Barr

In response to your letter 3 October 2007 regarding renaming and realignment of Gillett Court Casuarina

I object to the proposed Link Road, Renaming and Realignment of Gillett Court to Casuarina Way for the following reasons.

- When I purchased in Gillett Court the master plan had Casuarina Way shown running parallel with the coast and returning west at the two streets already noted Casuarina Way.
- I purchased in a cul-de-sac and would not have purchased if I had known it was going to be Casuarina Way.
- Why was Casuarina Way changed from the master plan?
- Why should my property be devalued for a developer to add value to there development?
- Tweed Council or the developer pay compensation to owners due to a road change and lose of property value?
- Gillett Court is a safer area for the children to play. If it is changed to Casuarina Way there will be a lot more traffic and dangerous due to additional cars and trucks.
- Driveway access will not be as safe due to additional traffic and reversing my boat into my garage will be harder and dangerous if the road is changed to a through road.
- The additional noise generated by cars and trucks if the road was changed to Casuarina Way a through road.
- Who is responsible for notification of a change of address details to insurance companies, licence details, building company suppliers and clients, banks, share registry superannuation funds and friends etc?
- Why was my mailing address advised by Tweed Council as 5 Gillett Court when I moved into my house July 2005.

- If a change of address notification was not provided to any person, provider, institution, insurance company etc and a claim, lose or fine occurred. Why should I be responsible for changing all of my mailing details?
