MAYORAL MINUTE (REPORT)

a5 **Mayoral Minute (Report) - Cobaki Subdivision Development Applications (DA10/0800 and DA 10/0801)**

Councillors,

The public submission period for these two applications closed on Monday 21 February 2011. The applications involve a combined total of over 900 new residential lots, and are accompanied by an extensive amount of technical documents. I am concerned that Tweed residents have not been given sufficient time to view the relevant DA documents, and to understand the impacts and implications, prior to making any submission. I therefore consider that an additional period for public submissions is justified for the scale of these proposals.

RECOMMENDATION:

That Council urgently seeks the approval of the Chairman of the Northern Region Planning Panel to formally extend the period for public submissions on DA10/0800 and DA10/0801 by 28 days, that is, to the close of business on Monday 21 March 2011, and that Council officers prepare an article for the Tweed Link which provides a summary of the main elements of these applications.
