Background

To validly establish an alcohol-free zone a council must comply with the procedures in sections 644 to 644C of the *Local Government Act* and the *Ministerial Guidelines on Alcohol-Free Zones, 2009*.

An alcohol-free zone is a means by which a council may limit the locations within its area where the consumption of alcohol is permitted. Matters to be addressed need to include:

1. **Reasons to Support the Alcohol-Free Zone**

The irresponsible consumption of alcohol on roads and footpaths and in public car parks can compromise their safe use by members of the public without interference. Reasons stipulated must reflect the fact that irresponsible behaviour arising from the consumption of alcohol is occurring on those roads and footpaths and in those public car parks such as obstruction, littering, the actual commission of, or police intervention to avoid the commission of, more serious offences under the *Law Enforcement (Powers and Responsibilities) Act 2002*, *Summary Offences Act 1988* or the *Crimes Act 1900* such as malicious damage.
2. **Location of the Alcohol-Free Zone**

An alcohol-free zone may only be established to include a public road, footpath or a public place that is a car park (i.e., car parks on public land or Crown land).
3. **Duration of the Alcohol-Free Zone**

An alcohol-free zone may be established for a maximum period of four years. Once established, it applies twenty-four hours per day.

Where a problem with irresponsible street drinking exists only in relation to a special event within the local area, an alcohol-free zone may be established only for that special event. An alcohol-free zone declared for a special event also has a maximum duration of four consecutive years.
4. **Consultation with the Police**

In preparing a proposal to establish an alcohol-free zone a council must consult with relevant police Local Area Commander about the appropriate number and location of alcohol-free zones
