Hi Nick, we understand that following your site inspection with Mr Derek Williams on approximately 23 December 2014, that Council's primary concern is that the farm road is looped.

As requested, on behalf of our client Mr Derek Williams we now formally amend our submission dated 17 November 2014 to remove approximately 100m of the looped road at the northern end and instead provide connections to the shed and other internal road.

We trust that this satisfactorily addresses Council's concern and look forward to a written response to our submission (as amended).

Please contact our office should you require any additional information.

Regards
