Dear Sir

Drainage - Ozone Street

As advised, Council has completed survey work to determine the position of the open drain in relation to your clients property.

The survey indicates that the drain is on your clients property at the Sand Street/Terrace Street corner but does not interfere at any other places. A copy of this survey is attached.

Aerial photographs indicate that this drain has been in existence for many years. Some maintenance work was carried out north of your clients property in 1995 but records do not show work affecting Lots 165 and 167.

Yours faithfully

Bob Missingham
Manager
