Subject: Proposed Special Rate Variation 2016/17

Dear Sir/Madam,

I wholeheartedly support Council's intent to proceed with its application for the Special Rate Variation 2016/17. This is a very small price for residents of Leda's Cobaki development to pay in order to live in an area with such outstanding environmental attributes. It is also the only feasible way for Council to finance the maintenance of these environmental attributes for the benefit of the broader community. This approach has been shown to work very effectively with similar developments such as Koala Beach at Pottsville.

Sincerely,

Graeme Lloyd
