SERVICE SUMMARY

The beginning of the summer holiday period brought some ideal conditions to Tweed Shire beaches as the region had the second warmest day and night temperatures on record. The surf across much of the state including the Tweed Shire was small and provided some favourable conditions to the lifeguards, the Tweed Shire community and visitors alike.

Due to the good conditions, lifeguards were only required to undertake thirty five (35) rescues despite an increase of over 31,000 additional beach visitors when compared to the same period last season. Of the thirty five (35) rescues, fourteen (14) of them were conducted at Kingscliff and Kingscliff North Beaches and is an increase of two (2) rescue when compared to the summer period last season.

Attendance across the Tweed Shire beaches was similar to last year across most of the patrolled locations with the exception of Duranbah and the Kingscliff beaches which saw a combined increase of 16,680 beach visitors. Lifeguards also performed 9,481 preventative actions and 281 first aid cases during the summer patrol period which is up from the 7,301 preventative actions that lifeguards made during the summer period last season and double the amount of first aid cases lifeguards responded to last summer.

INCIDENTS

- On the 25th December 2016, lifeguards from Duranbah Beach contacted the State Operations Centre and requested police assistance after two dogs with bleeding wounds were harassing people on the beach. Lifeguards kept an eye on the dogs until the Police arrived.
- On the 31st December 2016, the lifeguards from Hastings Point were contacted by the State Operation Centre after they received a call from Ambulance NSW about a kite surfer with a broken arm. The Hastings Point lifeguards met the ambulance crews and helped to transport the man via 4x4 off the beach where he was then transported to Tweed Hospital.
- On the 1st January 2017, lifeguards at Kingscliff North contacted the State Operations Centre and requested an ambulance for a 15 year old male who sustained a suspected spinal injury after he was dumped by a wave. Lifeguards closed the beach and immobilised the patient to prevent any further damage until the ambulance crews arrived and transported the patient to Tweed Hospital.
- On the 6th January 2017, lifeguards at Pottsville North requested an ambulance via the State Operations Centre for an 11 year old male who was having a severe reaction to a bluebottle sting. The boy had a shortness of breath so the lifeguards monitored him until his condition improved. The ambulance was stood down but the lifeguards recommended that the boy was transported to hospital for further medical assessments.

- On the 8th January 2017, lifeguards at Duranbah Beach requested police assistance after a man in his 30s, wearing a rash vest was reported hiding in the carpark at Duranbah beach and asking people for car keys. Lifeguards monitored the man but he fled when he was told police were being called. The police did attend but the man was not found.
- On the 8th January 2017, lifeguards from Cabarita Beach requested an ambulance through the State Operations Centre for a 55 year old male surfer who sustained a laceration to his top lip. Lifeguards cleaned and treated the man's injury just as a female presented herself to the lifeguards suffering from severe marine stings. After treating the man's injury he left the scene and made his own way to hospital but the ambulance that had been called arrived and staying to monitor the female patient and her marine stings until recovered.
- On the 16th January 2017, lifeguards at Kingscliff North requested police assistance via the state operations centre after a male causing some disruption on the beach and was acting inappropriately around a number of females. Lifeguards monitored the man's whereabouts as he entered the water to go surfing but the police did not attend and the man left the beach.
- On the 26th January 2017, lifeguards at Hastings Point rescued a 20 year old male and a 12 year old male from the water. When they were both returned to shore the 12 year old was vomiting and an ambulance was called. After treating the boy and monitoring his condition it was ascertained that the ambulance could not find the exact location of the lifeguards and was stood down as the patient was taken to hospital for further medical assessments by family.
- On the 29th January 2017, lifeguards at Duranbah Beach requested an ambulance via the State Operations Centre for a 10 year old female who was having a severe reaction to sting. It was not known what stung the patient but she was suffering from shortness of breath so the lifeguards monitored her until the ambulance arrived and performed further medical assessments until the patient was deemed ok and released to her parents.
