

Draft

Delivery Program 2017–2021 Operational Plan 2017–2018

Council values and statements

What we value

'Living and Loving the Tweed'

We look after people and our places, explore all opportunities, and are proud of our passionate approach.

We care about each other, choose to be here, and are in this together.

We have conversations where everyone can contribute, and we are willing to have a go.

We put back in to make a difference, so that our Tweed community is even better tomorrow than it is today.

Vision

The Tweed will be recognised for its desirable lifestyle, strong community, unique character and environment and the opportunities its residents enjoy.

Mission

Working with community and partners, provide leadership in facilitating and delivering services that manage growth sustainably, create opportunity and enhance the value of our civic and natural assets for this and future generations.

DRAFT

Statement of acknowledgement of the Bundjalung Aboriginal Nation

We wish to recognise the generations of the local Aboriginal people of the Bundjalung Nation who have lived in and derived their physical and spiritual needs from the forests, rivers, lakes and streams of this beautiful valley over many thousands of years as the traditional owners and custodians of these lands.

What is the Delivery Program?

A message from the General Manager

The Tweed is rapidly evolving and we need to keep pace, to provide opportunities for our young people, to prepare for an ageing population, to promote and support tourism, agriculture and economic development whilst always considering our responsibilities in ensuring the sustainability of our natural environment

'Living and Loving the Tweed' is the theme of Council's *Community Strategic Plan 2017–2027* which sets out the community's vision and Council's commitment for the next decade; it sits above the other strategies, policies and procedures that underpin our work.

The delivery program and annual operational plans follow the themes identified in the *Community Strategic Plan 2017–2027* and detail Council's role in the delivery of projects and services during the four-year term of the elected council, in order to realise the long-term strategic goals.

This *Draft Delivery Program 2017–2027* is focussed around four key streams in which Council delivers services to the community:

- Leaving a legacy
- Making decisions with you
- People, places and moving around
- Behind the scenes

The streams detail the delivery of planned projects and services for each year, aligning each action to a budget and outlining any other resourcing issues.

Each service page also features feedback from Council's comprehensive Service Planning Survey which was distributed in late 2017 and received almost 1700 responses.

'Living and Loving the Tweed' says so much about the unique environment in which we live and the pride and passion our residents feel in being a part of this community.

I look forward to working with our Councillors, staff and community to ensure we are all 'Living and Loving the Tweed' now and into the future.

Troy Green – General Manager

Your elected Council

The Mayor and Councillors (November 2016 to September 2020)

At the Tweed Shire Council Local Government Election held on Saturday 29 October 2016, the following Councillors were elected to represent The Tweed for the Council term which will conclude in September 2020.

Cr Katie Milne	Cr Warren Polglase	Cr Pryce Allsop	Cr James Owen
Cr Reece Byrnes	Cr Chris Cherry	Cr Ron Cooper	

At the first Extraordinary Meeting of the new Council held 17 November 2016, Cr Katie Milne was elected as Mayor for a two-year term and Cr Chris Cherry was elected Deputy Mayor until September 2017.

Council Meetings

A Planning Committee Meeting (comprising all Councillors) to discuss planning matters is held on the first Thursday of each month from 6pm. Community Access on items on the Planning Agenda is held prior to the Committee meeting.

An ordinary Council Meeting is held on the third Thursday of each month from 6pm to discuss all other items including planning matters deferred from a Planning Committee meeting. The Council Meeting includes consideration of Notices of Motion, Questions on Notice, Mayoral Minute and all other reports. Community Access is held prior to the meeting for members of the public to discuss matters other than planning items.

Reserves Trust Meetings are held on the same day as the ordinary Council Meeting.

Agendas for meetings are available on Council's website at www.tweed.nsw.gov.au from 8pm on the Tuesday of the week preceding the meeting. Minutes of Council meetings are released as soon as possible following each Council meeting.

The General Manager and other Council staff prepare reports and make recommendations for councillors to consider. Matters can also be raised as Mayoral Minutes and reports, notices of motion and rescission motions for debate at a Council meeting.

Tweed Shire Councillors (left to right):
Cr Reece Byrnes, Cr Ron Cooper,
Cr Chris Cherry, Cr Katie Milne,
Cr James Owen, Cr Warren Polglase
and Cr Pryce Allsop.

Local Government area profile

Who we are and how we live

Our shire

Nestled in the eroded caldera of the largest shield volcano in the southern hemisphere, the Tweed is the largest local government area on the north coast of New South Wales, covering an area of just over 1309 km².

The Tweed adjoins the NSW local government areas of Byron, Lismore and Kyogle, with the Queensland border to its north where it divides the twin towns of Tweed Heads and Coolangatta.

Acknowledged as one of the **most biodiverse** regions in Australia.

Our community

The Tweed Shire's population for 2015 was 92,460 and is forecast to grow to 125,953 by 2036.

In line with this population growth, the number of dwellings in the Tweed is forecast to grow from 40,452 in 2011 to 56,907 in 2036, with the average household size rising from 2.38 to 2.42 by 2036.

Between 2011 and 2036, the age structure forecasts for the Tweed indicate a 50 per cent increase in population under working age (15 years), a 44 per cent increase in population of retirement age, and a 36 per cent increase in population of working age.

The State Government recently identified Tweed as one of 3 new **regional cities in NSW** along with Coffs Harbour and Port Macquarie.

Source: Australian Bureau of Statistics, Census 2006 and 2011 (<http://economy.id.com.au/tweed/indicators>)

Our economy

The Tweed's annual Gross Regional Product (GRP) is estimated at \$2.89 billion, which represents 0.6 per cent of the state's Gross State Product (GSP).

The Tweed has a diverse industry base including agriculture, tourism related industries such as accommodation, cafés/restaurants and retail along with a burgeoning food processing industry.

In the year ending June 2014, there were 28,289 local jobs and 6585 local businesses in the Tweed Shire.

The key industry sectors are health care and social assistance, retail trade, accommodation and food services, education and training, and construction.

Our challenge

The predicted increase in population and changing demographics over the next 20 years will require co-ordinated planning between all levels of government, developers and the community to ensure the continued social and physical infrastructure (schools, hospitals, roads, water, sewer, and community facilities) is sustainable and at a level consistent with community expectations.

Providing employment opportunities, promoting business investment and advocating for essential transport links to markets, emerging technologies and infrastructure through state and federal government will be essential to maintain the Tweed's positioning as a most desirable and liveable destination.

Our planning framework

The *Community Engagement Strategy*

The *Community Engagement Strategy* details how Council engages with the community and other relevant stakeholders to develop and complete the community strategic plan. It outlines how Council will regularly engage with the community to determine the community's needs and aspirations for the future of the Tweed.

Community Strategic Plan 2017–2027

The *Community Strategic Plan 2017–2027* is the overarching, visionary document in Council's Integrated Planning and Reporting Framework. It translates the community's key priorities and aspirations into long-term strategic goals that guide the future direction of Tweed Shire. Environmental protection and stronger communities were leading concerns identified during community engagement to create the plan.

Council has a custodial role in developing the plan, while realising its long-term strategic goals is a shared responsibility between Council, the community and other government and non-government entities.

Delivery Program 2017–2021 and annual operational plans

The *Draft Delivery Program 2017–2021* and annual operational plans detail Council's role in the delivery of projects and services during the four-year term of the elected council, to realise long-term strategic goals. They detail the delivery of planned projects and services for each year, aligning each action to a budget and outlining any other resourcing issues. Each activity is also assigned to a Council officer who is responsible for its delivery.

Council's progress in delivering each planned project and service is monitored by budget reviews and a set of key performance indicators reported to the community every three months. An Annual Report is also prepared to provide a yearly report on Council's overall progress and an end-of-term report at the conclusion of the four-year term.

Resourcing Strategy

The *Resourcing Strategy* outlines Council's capacity to manage assets and deliver services over the next 10 years. The strategy's key elements are a *Long-Term Financial Plan*, a *Workforce Management Plan* and asset management planning. Council must effectively manage its finances, the sustainability of its workforce and the cost of providing and maintaining community assets and services.

2017 flood: impact on Tweed Shire Council planning

The full impacts of the catastrophic flood events that descended upon the Tweed Shire in late March early April 2017, will not be known for some time.

Once the full assessment of damage to Council infrastructure and assets is completed, Council will then be working with the State and Federal Government regarding the level of financial support and assistance Council will be receiving.

As a result changes may need to be made to Council's capital works program/significant projects and service levels that have been listed in the Draft Delivery Program.

It is anticipated that the information on levels of support to be provided by governments to Council will be known in time for the 1st quarter review (September 2017) enabling any adjustments that may need to be considered to the Delivery Program to be presented to Council at this time.

Implementation timetable

Draft Delivery Program 2017–2021 and Draft Operational Plan 2017–2018

20 April 2017	Draft plans presented for consideration by Council.
26 April 2017	Draft plans placed on public exhibition for a minimum 28 days.
26 May 2017	Public exhibition period closes.
15 June 2017	Council meeting to adopt the combined <i>Draft Delivery Program 2017–2021 and Draft Operational Plan 2017–2018</i>

Capital Works Program

Council will maintain a 10-Year Capital Works Program, supported by its asset management plans, to prioritise the allocation of scarce funds to capital projects and refurbishment programs identified in the Delivery Program.

The long-term financial plan provides realistic projections of available funds, to help determine which projects proceed.

The capital works planning cycle is synchronised with the annual Operational Plan, with works priorities reviewed annually to take elected Council and community expectations into account.

Planned capital works are listed under 'Significant projects/works' for each service category (identifying the years in which the works are expected to be carried out) and are also listed in the full combined capital works budget listing contained within the 'Financials' section of this document.

Service graphs (what it costs)

Each of the services contained within this plan contain a graph outlining the cost of the service and the sources of funding utilised to cover this cost. The following definitions are intended to assist with understanding the various terms contained within these graphs:

Expenditure: consists of general operating expenses, capital works expenditure, loan payments, internal charges from other services and transfers of funds to reserves for future use.

General revenue: consists of general rate income, interest earned on investments, pensioner rebate subsidies and financial assistance grants received.

Fees and charges: consist of income received from regulatory fees, private works and general fee for use charges.

Grants and contributions: consists of operating and capital grants received from other levels of government, developer contributions and other specific purpose contributions received. Note: Some Council services that are regularly in receipt of grants (e.g. Natural Resource Management services) do not display any grant income on their service graphs. Only those grants that are confirmed at the time of preparing the budget are included in the upcoming budget.

Reserve revenue: consists of transfers of funds from accumulated reserves towards the project(s) for which those reserves have been set aside.

Other revenue: consists of interest earned on developer contributions, proceeds on sale of assets and internal charges to other services.

Asset condition ratings

Key Performance Indicators (How we measure) for some of the services contained within this plan relate to achieving asset condition ratings to a specified numerical level. The following table is provided in order to assist in understanding what the numerical targets represent:

Condition rating	Community rating	Description of asset condition
0	Brand New	A new asset or recently constructed/reconstructed.
1	Excellent	An asset in excellent overall condition however is not new and shows no signs of distress or defects.
2	Good	Sound construction with good condition and no distortion with limited ageing or may show minor distress upon close inspection such as sporadic fine cracking or isolated minor defects with no associated distortion.
3	Fair	Reasonable construction showing some aging and or signs of distress, such as fine to moderate cracking and or minor distortion. The extent of such defects will typically affect less than 20% of the asset targeted for assessment and can be rectified with minor maintenance works.
4	Poor	Asset displays substantial deterioration (20% to 50%) of distress Major renewal work required.
5	Very Poor	Asset displays significant locations of distress (greater than 50%). Extensive renewal work required.

DRAFT

Principal streams, sub-streams and key services

The Community Strategic Plan and related documents including this Delivery Program are structured around four service streams, each of which is broken into a number of sub-streams.

The streams have been developed based on feedback from the community, stakeholders and leaders, and incorporate local, regional, state and national priorities for Council.

Leaving a legacy: Looking out for future generations

1.1 Natural resource management

- Biodiversity Management
- Bushland Management
- Coastal Management
- Environmental Sustainability
- Sustainable Agriculture
- Waterways (Catchment) Management

1.2 Asset protection

- Floodplain Management
- Stormwater Drainage

1.3 Utility services

- Rubbish and Recycling Services
- Tweed Laboratory
- Sewerage Services
- Water Supply

1.4 Managing community growth

- Strategic Land-use Planning

Making decisions with you: We're in this together

2.1 Built environment

- Building Certification
- Development Assessment
- Development Engineering and Subdivision Assessment

2.2 Engagement

- Animal Management
- Communications
- Contact Centre

- Councillor and Civic Business
- Financial Services

People, places and moving around: Who we are and how we live

3.1 People

- Cemeteries
- Community and Cultural Development
- Community Services
- Compliance Services
- Economic Development
- Environmental Health
- Events
- Lifeguard Services
- Local Emergency Management
- Pest Management
- Public Toilets
- Tourism

3.2 Places

- Aquatic Centres
- Art Gallery
- Auditoria
- Holiday Parks
- Libraries
- Museum
- Parks and Gardens
- Saleyards
- Sporting Fields

3.3 Moving around

- Airfield
- Construction Services
- Design Services
- Roads, Traffic, Footpaths and Cycleways

Behind the scenes: Providing support to make it happen

4.1 Assurance

- Governance
- Internal Audit
- Legal Services

4.2 Support services

- Fleet Management
- Human Resources and WHS

- Information Technology
- Procurement Services

Leaving a legacy *Looking out for future generations*

The Tweed features an environment of world-significant biodiversity and natural beauty, and distinct cultural and built heritage – Council and the community values its protection.

The Tweed community respects and actively participates in the sustainable management of the natural and built environment so we can not only thrive and enjoy it today, but we look after this place we are proud to call home, so future generations can live and love it as well.

Council's role is to work with the community and others to plan strategically for sustainable growth and change, and to support initiatives that help the Tweed retain and enhance its diverse natural and built environments, and to deliver sustainable essential services such as water, sewer and sanitation to meet community needs now and into the future.

1.1 Natural resource management

Biodiversity Management
Bushland Management
Coastal Management
Environmental Sustainability
Sustainable Agriculture
Waterways (Catchment) Management

1.2 Asset protection

Floodplain Management
Stormwater Drainage

1.3 Utility services

Rubbish and Recycling Services
Tweed Laboratory
Sewerage Services
Water Supply

1.4 Managing community growth

Strategic Land-use Planning

What you told us – 2016

Importance: **Very**

Satisfaction level:

1.1 Natural Resource Management

1.1.1 Biodiversity Management

Our service goal

To protect and manage the environment and natural beauty of the Tweed for current and future generations.

Responsible Officer

Unit Coordinator – Natural Resource Management.

What we deliver

- Internal and external advice on biodiversity issues, legislative requirements and strategic planning
- Biodiversity policy development and implementation
- Biodiversity research and monitoring
- Threatened species management
- Private land conservation programs

What we use to deliver

- 7 Council staff have primary responsibility for providing this service
- Landcare and other volunteers (approximately 200 hrs per week)
- 5 volunteer community representatives are members of the Tweed Coast Koala Management Committee
- Contractors are used for:
 - Re-vegetation and weed control
 - Preparation of strategic planning documents

How we measure

Key Performance Indicator	Measure	2017–18	2018–19	2019–20	2020–21
1 Percentage of properties with mapped bushland involved in private land conservation programs	%	Baseline	Increase	Increase	Increase
2 Number of threatened species for which Council is implementing recovery actions	#	20	20	20	20
3 Percentage of Tweed Coast Comprehensive Koala Plan of Management actions complete or on track	%	75–90	75–90	75–90	75–90
4 Customer satisfaction rating	%	>80	>80	>80	>80

What it costs

Significant projects/works

Project	2017–18	2018–19	2019–20	2020–21
1 Ongoing creation of additional koala habitat on private and public land toward the KPOM target of 200 hectares	✓	✓	✓	✓
2 Update mapping of vegetation communities	✓	✓		
3 Review Environmental Zones	✓	✓	✓	

Project	2017-18	2018-19	2019-20	2020-21
4 Implementation of the Shire-wide Flying-fox camp management plan		✓	✓	✓
5 Reassessment of the Tweed Coast koala population		✓		
6 Prepare a Tweed Shire Biodiversity Strategy			✓	✓
7 Review and update the Tweed Coast Koala Plan of Management				✓

DRAFT

What you told us – 2016

Importance: **Very**

Satisfaction level:

1.1 Natural Resource Management

1.1.2 Bushland Management

Our service goal

To manage bushland on land owned or under the care and control of Council.

Responsible Officer

Unit Coordinator – Natural Resource Management

What we deliver

- Bushland management
- Bushfire management including hazard reduction works and risk assessment
- Noxious weed control
- Advice on weeds and weed management

What we use to deliver

- 1 Council staff member has primary responsibility for providing this service
- Contractors are used for:
 - Re-vegetation and weed control
 - Hazard reduction and bushfire risk mitigation services

How we measure

Key Performance Indicator	Measure	2017–18	2018–19	2019–20	2020–21
1 Percentage of Land management plan actions complete or on track	%	75–90	75–90	75–90	75–90
2 Percentage of Asset Protection Zones Maintained	%	>95	>95	>95	>95
3 Cost per hectare of bushland management actions	\$	Baseline	Maintain	Maintain	Maintain
4 Change in the extent or density of Bitou bush in the Tweed Coastal Reserve	%	0	0	0	0

What it costs

Significant projects/works

Project	2017–18	2018–19	2019–20	2020–21
1 Plan and support hazard reduction burns on bushland reserves in accordance with land management plans and the Tweed Coast Koala Fire Management Plan	✓	✓	✓	✓
2 Community engagement activities promoting the values of Council's bushland reserves	✓	✓	✓	✓
3 Implementation of the NSW Environmental Trust funded project <i>Investing in the future of Pottsville's koalas</i>	✓	✓		

What you told us – 2016

Importance: **Very**

Satisfaction level:

1.1 Natural Resource Management

1.1.3 Coastal Management

Our service goal

To protect and manage the use and quality of the Tweed's beaches and foreshores.

Responsible Officer

Unit Coordinator – Natural Resource Management

What we deliver

- Coastal hazard identification and risk management
- Beach access and use management
- Waterways access (via facilities) and use management
- Supporting Dunecare groups to manage coastal vegetation

What we use to deliver

- 8 Council staff members have primary responsibility for providing this service
- Landcare and other volunteers (approximately 100 hrs per week)
- Contractors are used for:
 - Fabrication and installation of pontoons
 - Specialist assessment of erosion risk and design of coastal protection structures

How we measure

Key Performance Indicator	Measure	2017–18	2018–19	2019–20	2020–21
1 Percentage of Coastal Management Program actions complete or on track	%	75–90	75–90	75–90	75–90
2 Median annual condition rating of beach access ways and viewing platforms	#	<3.5	<3.5	<3.5	<3.5
3 Median annual condition rating of boating and foreshore facilities	#	<3.5	<3.5	<3.5	<3.5
4 Number of Dunecare volunteer person hours worked	#	6,000	6,000	6,000	6,000

What it costs

Significant projects/works

Project	2017-18	2018-19	2019-20	2020-21
1 Review and update DuneCare Plans of Management	✓			
2 Deliver priority actions from Waterways Infrastructure Asset Management Plan including: <ul style="list-style-type: none"> • Repair and replace waterways infrastructure damaged in March 2017 • Replace Tumbulgum Boat Ramp jetty • Upgrade Commercial Road Boat Ramp car park • Improvements to Kennedy Drive Boat Ramp car park 	✓	✓	✓	✓
3 Kingscliff Foreshore Revitalisation Project – seawall	✓			
4 Develop Tweed Coastline Management Program		✓		
5 Implement Tweed Coastline Management Program			✓	✓

DRAFT

What you told us – 2016

Importance: **Very**

Satisfaction level:

1.1 Natural Resource Management

1.1.4 Environmental Sustainability

Our service goal

To support Council, businesses and the community to achieve the best possible combination of environmental, social and economic outcomes.

Responsible Officer

Unit Coordinator – Natural Resource Management

What we deliver

- Corporate, business and community awareness, engagement, and education initiatives
- Corporate sustainability strategies
- Corporate environmental projects, monitoring and reporting
- Community environmental reporting

What we use to deliver

- 1.25 Council staff have primary responsibility for providing this service. Other staff support the sustainability program.
- Volunteers (varied and unspecified number of hrs per week)
- Contractors are used for strategy development, technical energy efficiency and renewable energy expertise, carbon mitigation advice and regional state of the environment coordination

How we measure

Key Performance Indicator	Measure	2017–18	2018–19	2019–20	2020–21
1 Percentage of Environmental Sustainability Prioritisation Strategy (ESPS) initiatives completed or on track	%	75–90	75–90	75–90	75–90
2 Annual reduction in Council Greenhouse gas emissions (specific target to be set pending Renewable Energy Action Plan completion)	%	>0	>0	>0	>0
3 Percentage of Renewable Energy Action Plan initiatives completed or on track	%	75–90	75–90	75–90	75–90
4 Total attendance at sustainability program engagement events	#	650	650	650	650

What it costs

What you told us – 2016

Importance: **Very**

Satisfaction level:

1.2 Asset Protection

1.2.1 Floodplain Management

Our service goal

To manage the risk of flooding and its impacts for property owners and the community.

Responsible Officer

Manager – Roads and Stormwater

What we deliver

- Evaluate and respond to flood impacts associated with land use and development
- Design, construct and maintain flood protection assets such as floodgates, flood pumps and levees

What we use to deliver

- 3 Council staff have primary responsibility for providing this service
- Some farmers have signed volunteer agreements to monitor and assist in operating rural flood gates. Other rural landholders play an informal role in checking flood gates and reporting issues to Council
- Contractors provide specialist modelling, flooding studies and plant hire

How we measure

Key Performance Indicator	Measure	2017–18	2018–19	2019–20	2020–21

What you told us – 2016

Importance: **Very**

Satisfaction level:

1.2 Asset Protection

1.2.2 Stormwater Drainage

Our service goal

To efficiently capture and convey rainfall runoff and release it into the environment safely.

Responsible Officer

Manager – Roads and Stormwater

What we deliver

- Ensure adequate stormwater drainage infrastructure is provided with new infrastructure works or developments
- Design, construct and maintain stormwater network assets

What we use to deliver

- Around 10 equivalent staff in the Roads and Stormwater Unit have responsibility for providing this and related services.
- Contractors are used for:
 - Specialist studies (e.g. drainage modelling)
 - Contract material supply
 - Contract traffic control
 - Specialist services (e.g. vacuum trucks, aquatic weed removal, pipe relining, pipe jacking/directional drilling, underwater specialists)

How we measure

What you told us – 2016

Importance: **Very**

Satisfaction level:

1.3 Utility Services

1.3.1 Rubbish and Recycling Services

Our service goal

To collect, recycle and dispose of residential and commercial waste, manage tip sites and deliver community education so as to divert rubbish from landfill.

Responsible Officer

Unit Coordinator – Waste Management

What we deliver

- Rubbish collection, disposal and recycling services
- Adequate facilities and planning to minimise service interruptions and to cater for current and future demand
- Disposal service for special waste including e-waste, oil, batteries, domestic chemicals and paint, fluorescent bulbs and tubes
- Community education and engagement to support the use of the various resource recovery options

What we use to deliver

- 11 Council staff have primary responsibility for providing this service
- These staff are supported by a number of high value contracts which engage an additional 20 plus staff
- The key aspects of this service provided by contractors include recycling and the collection of waste from households

How we measure

Key Performance Indicator

Key Performance Indicator	Measure	2017–18	2018–19	2019–20	2020–21
1 Diversion from landfill of rubbish collected from red, yellow and green bins	%	60	61	62	63
2 Diversion from landfill of all waste received at the tip	%	55	60	60	60
3 Household organics collected for reuse (average kg per household per year)	#	300	300	300	300
4 Household recycling product collected for reuse (average kg per household per year)	#	270	270	270	270
5 Compliance with environmental standards for tip sites	%	99	99	99	99

Importance: **Very**

Satisfaction level:

1.3 Utility Services

1.3.2 Sewerage Services

Our service goal

To provide high quality and reliable sewerage collection and treatment services that meet health and environmental requirements.

Responsible Officer

Manager – Water and Wastewater

What we deliver

- A high quality sewerage service with minimal interruptions and impacts on the community
- Community education and engagement to support non-potable water reuse
- Planning and capital works to improve levels of service and cater for growth
- Assessment of applications to extend and or connect to the sewerage system

What we use to deliver

- 65 Council staff have primary responsibility for providing sewerage services.
- Small to medium sized projects are generally constructed by Council staff
- Major capital works such as upgrades of treatment plants are project managed by Council and undertaken by contractors.

Making decisions with you
We're in this together

Council and the community working together will shape a better Tweed for the future.

The Tweed is a very proud and diverse community, and understands the importance of open information to enable community participation in steering the direction, decision-making and long-term goals of the Shire.

Council values these conversations that help to deliver sustainable development outcomes, balancing future population and economic growth with the protection and enhancement of natural, cultural and built environments.

People, places and moving around

Who we are and how we live

Some residents were lucky to be born in the Tweed, others have made the fortunate choice to make this region their home – all of us have a role to play in shaping a safe, liveable community and to respect and value the unique characteristics that make the Tweed so special.

Together we can work to create a Tweed where people are welcomed, healthy and connected, with opportunities to prosper in their individual pursuits.

Council's role is to work to meet the present and future infrastructure demands of the Tweed whilst providing community and cultural services and employment opportunities to retain and improve the quality of community life.

Behind the scenes *Providing support to make it happen*

To look after the Tweed now and into the future a great deal of work happens behind the scenes to ensure there are planned, resourced, efficient and transparent systems in place to enable our community to function and prosper.

The community expects responsible and transparent decision making with a focus on public conversations and ownership.

Council's role as visionary regional leader, service provider, partner and promoter draws together the skills and resources of other government agencies, businesses and community organisations to contribute to making the Tweed of tomorrow even better than it is today.

Financials

Long-term financial plan

Council's Long Term Financial Plan (LTFP) has been developed in accordance with organisational needs and in compliance with the requirements of the Integrated Planning and Reporting Framework of the Office of Local Government.

Council's LTFP contains a set of long range financial projections and statements based on an informed set of assumptions concerning Council's budget. It is designed to show the incremental financial impacts on Council's Budget of providing services and asset delivery. In addition to the expenditure based analysis, the Plan also demonstrates the financial impact on Council's finances from programs of borrowings and alternate funding sources.

Council's current LTFP covers a 10 year time frame from 2017–2018 to 2026–2027.

The LTFP is a necessary document to assist Council with its process of financial sustainability by documenting, planning and analysing the long term financial impacts on Council's operations.

Asset management

Council manages infrastructure on behalf of the community or government. Once created, infrastructure assets generally have long lives, but by their very nature generate ongoing responsibilities and challenges.

Council is confronted by significant issues such as:

- How to meet the increasing demand for new and upgraded infrastructure
- How to retrofit infrastructure to address non-existent, deficient or substandard infrastructure
- How to prolong the life or renew existing infrastructure
- How to pay for it and the associated life cycle costs of maintenance, servicing, renewal, reconstruction
- The effect of ageing infrastructure and reduced funding as a result of rate pegging, cost shifting and escalating costs

A financially sustainable council is one that can meet its funding requirements relative to the provision of its services; this includes the maintenance, renewal and replacement of required assets without operating in deficit for sustained periods of time, without imposing excessive debt on current or future generations and without unplanned rate revenue increases.

The strategic long term financial sustainability aim of Council is to:

- Continue its financial sustainability over the long term while at the same time delivering needed services and infrastructure in response to the community's priorities, as identified in Council's Community Strategic Plan
- Generate additional funding where possible to address community service priorities as defined by Council's strategic actions and the community survey results and provide improvements to Council assets as identified

Accordingly, the LTFP is Council's long term financial mechanism to deliver to a financially sustainable platform of services and infrastructure. The LTFP can be viewed on Council's website at www.tweed.nsw.gov.au

In addition to the creation and or retrofitting of assets, annual maintenance programs are directed towards retaining adequate levels of serviceability of assets but keeping assets to desirable standards is one of local government's biggest financial challenges.

Council has developed an asset management planning for each asset class to outline:

- Council's current position with respect to asset management practice.
- Council's future needs with respect to asset management practice.
- A current maturity level with respect to the Council's position to manage infrastructure assets.
- A series of action plans on how the Council intends to achieve future needs.
- Performance monitoring processes.

The Asset Management Strategy can be viewed on Council's website at www.tweed.nsw.gov.au

Revenue Policy – 2017–18

The Revenue Policy and Statement is a key component of the functionality of the Operational Plan and lists Council's Fees and Charges for 2016–2017, including all areas that support the generation of Council's income.

The revenue categories include:

- Rates
- Annual charges for services
- Fees for services
- Commonwealth and State Government grants
- Earnings from investments and entrepreneurial activities
- Borrowings
- Other revenues, including income from the sale of assets.

The Revenue Policy 2017–18 can be viewed at Council's website on www.tweed.nsw.gov.au

2017–18 budget summary

The 2017–18 budget has been prepared using the previous year's Long Term Financial Plan as a base, adjusted for known variations and new demands.

The \$229 million budget is made up of 3 funds:

General	\$141 million
Sewer	\$44 million
Water	\$44 million

Income and expenditure commentary

Rates and annual charges

For 2017–18, the Independent Pricing and Regulatory Tribunal (IPART) has set the rate peg at 1.5%.

According to IPART, 'The rate peg is mainly based on the Local Government Cost Index (LGCI), which measures price changes over the past year for goods, materials and labour used by an average council.'

As Council had forecast a rate peg of 2%, the IPART decision has adversely impacted Council's budget by \$277,000. However this effect has been negated by a favourable recalculation of General Rates revenue, due largely to growth.

For further detail, refer to Council's Revenue Policy.

User charges and fees

Generally, user charges and fees have been set to increase by 5%, although there are exceptions where individual fees have been assessed and will increase at a different rate. Some fees are prescribed by the State Government, with Council having no discretion in the setting of those fees.

For further details, refer to Council's Fees and Charges document.

Interest and investment revenue

Council's estimated interest investment revenue for 2017–18 is \$8.5 million.

Interest on overdue rates, charges and deferred debts is budgeted at \$494,800

Council's diversified portfolio of bonds, term deposits and floating rate notes is managed in-house with the goal of maximising returns whilst maintaining a minimal level of risk and complying with the State Government's Ministerial Order.

Over 90% of invested funds are restricted and not available for general expenditure. Major restrictions are Water, Sewer, Waste and Holiday Park funds, developer contributions, reserves, and unexpended loans and grants.

Grants and contributions revenue

A conservative approach has been taken when budgeting for grants and contributions revenue. The Financial Assistance grant of \$9.5 million is forecast to grow at 1% per year. Over many years this grant has proven challenging to predict.

Generally, only known future grants are included in the forward projections, with the exception of grants which have been reliably received over a long period of time. For the first time this year, provision in the roads budget had been made for future unconfirmed grants. The related expenditure budgets are noted as being conditional upon the grants being confirmed.

The Pensioner Rebate subsidy of \$836,000 per year is shown as a static grant. The 5% Federal government contribution to Pensioner Rebates was discontinued in 2014–15, but was offset by the State government increasing its subsidy from 50% to 55% for a minimum of 2 years. It is assumed that this additional subsidy will be discontinued from 2017–18.

Developer contributions are assumed to generally remain static. This income is held as a restricted asset until recouped to fund projects and/or debt servicing of past projects.

Employee costs

As at December 2016, Council employed 692 full time equivalent staff.

Employee-related costs, which include salaries, entitlements, insurance, taxes, travel and training costs, are estimated to be in the region of \$60 million.

It is assumed that employee costs will grow at a rate of between 2.5% and 2.75% over the next 10 years. This includes anticipated award increases and growth through salary progression.

Borrowing costs

Council's loan portfolio of \$180 million generates an interest expense of \$12 million per year, progressively reducing as the overall debt is paid down over time.

The annual borrowing program averages around \$2 million, and focuses on renewing major infrastructure such as bridges and stormwater drainage, as well as flood mitigation works and public toilet renewals.

Principal repayments total \$8.4 million.

Depreciation

Depreciation estimates have been reviewed with adjustments made as a result of recent years' revaluations, assessment of conditions, review of useful lives, and review of inter-revaluation indexation rates.

As a result the depreciation estimate of \$41.5 million is \$1.7 million less than the 2016–17 budget.

Reserves

Council has a number of reserves which represent cash that is restricted for a specific purpose, usually to fund future expenditure.

Major transfers to reserves are:

Holiday Parks surplus	\$1.3m
Waste	\$1.4m
Water	\$12.9
Sewer	\$13.1m

Major transfers from reserves are:

Fleet	\$0.6m
Water	\$2.5m
Sewer	\$4.7m

Major capital expenditure items 2017–18

Capital expenditure totalling \$38 million is included in the budget. Major items are:

Korns Bridge	\$2.5m	Clarrie Hall Dam	\$2.2m
Chambers 2 Reservoir	\$2.3m	Hastings Point STP	\$1.2m

The full 2017–2018 budget can be viewed at Council's website on www.tweed.nsw.gov.au

Capital works

Council's Capital Works program for 2017–2018 including major works on roads, drainage, waste facilities, water and sewerage is listed below.

Financial assistance contributions to the community

Grants Provided by Council under Section 356 on the *Local Government Act 1993* (NSW) during the 2015–16 Year are shown below.

Tweed Shire Council Provides financial assistance contributions to the community via the following Policies:

Donations (Financial Assistance)

Tweed Shire Council recognises a need to assist community organisations and individuals that are interested in and working towards the enhancement and the well-being of its residents. Council advertises twice yearly in the Tweed Link inviting applications under its Donations (Financial Assistance) Policy. A panel comprising two senior Council officers and the Mayor reviews applications to determine eligibility and make recommendations to Council.

Festivals and Events Policy

The Tweed Community Strategic Plan identifies the vision for the Tweed is to be recognised for its desirable lifestyle, strong community, unique character and environment and the opportunities its residents enjoy. Events of all shapes and sizes contribute to achieving that vision through supporting community life, strengthening the economy and promoting caring for the environment.

The provision of financial assistance and in kind support to festivals and events supports the overall aims of Council and those objectives identified in Council's Events Strategy. Applications are assessed in relation to the Events Strategy and Council's broad objectives and plans. In kind support from Council can include: the loan of equipment, assistance with services to events held on Council administered land and assistance to events with notifications to residents and promotions through the Tweed Link and the Contact Centres.

Financial assistance to licensed not-for-profit native animal welfare groups

This policy establishes principles to enable financial assistance, on an annual basis, to be provided to licensed not for profit groups who provide care and rehabilitation to injured native wildlife. Consideration is given to the allocation of funding in accordance with the number or variety of native species that each group is licensed to provide assistance. As an indication, base line funding for the care and rehabilitation of one species may commence at \$2,500 per annum, to a maximum of \$5,000 per annum to groups licensed in providing services to more than one native species.

The total value of financial assistance planned for 2017–18 is summarised in the following tables.

Monetary payments

Recipient	Description	Amount (\$)
Various	2017–18 Donations Policy funding	33,000
Various	2017–18 Festival and Events Policy funding	281,000

Tweed Link advertising	3,000
Room hire	6,000
Total	488,021

Connections to other plans

Plans from other levels of government provide council with a point of reference for identifying relevant issues to consider for inclusion in the Community Strategic Plan. Council has chosen to directly link the service streams in the Community Strategic Plan with priorities found in NSW – Making it Happen (A summary of the priorities is contained within the attachments to this Plan) to clearly explain the connection between State and local planning.

The full document can be viewed at <https://www.nsw.gov.au/premiers-priorities>

As Council has a diverse number of roles including being a: Leader, Provider, Advocate and Collaborator, across a variety of program areas, it is important that the work Council undertakes ensures a balance of social, environmental, economic and good governance principles. This approach is called a Quadruple Bottom Line framework with a focus on sustainable development and good management. Council has linked its service streams to these quadruple bottom line principles.
