SERVICE SUMMARY

The festive summer holidays and ideal beach weather brought about one of the busiest summers the Tweed area has experienced in years. The majority of local caravan parks and resorts reached full capacity, further correlating with the beach attendance. The attendance records revealed an increase from the 2017-2018 summer (126,986), to 149,549 attendees for summer of 2018-2019.

With significantly less beach closure time compared to summer of 2017-2018 (387.5 hours to 59.25 in 2018-2019), the crowds were consistent, keeping the lifeguards on high alert at all times, especially with the large influx of approximately 720 marine stings throughout summer. As a result, First Aid treatments jumped from 103 to 897 when compared to 2017-2018. Fortunately, the high degree of preventative actions and immediate care from our skilled lifeguards in the Tweed Shire meant there were minimal reactions to the marine stings and therefore, no transportations to the hospital for any patients. The lower amount of rescues, 59 in 2017-2018 to 56 in 2018-2019, also coincides with the excellent work presented by the lifeguards.

Due to the large tidal flow and increased number of people at the creek mouth, a manual surveillance system was implemented at both North and South Pottsville Beach. The lifeguards on duty rotated regularly, spending 30 mins at the creek mouth providing extra supervision to swimmers in the creek. As a result, 12 rescues were successfully conducted during that time as lifeguards were able to provide rapid responses as they were already at the creek mouth. As well, the Emergency Beacon at Dreamtime beach allowed the lifeguards to regularly check the beach via the State Operations Centre to see if the amount of beach goers warranted a lifeguard to supervise. Overall, the summer holiday period of 2018-2019 was extremely busy, however, the beaches were well managed by the lifeguards in the Tweed Shire area.

INCIDENTS

- On the 7th of December 2018, lifeguards at Duranbah notified the State Operations Centre of a vessel with one person on board, caught up against the rocks with the nose under water. After lifeguards assisting the person to safety, they advised the State Operations Centre the patient did not require any medical assistance however the vessel was not in a safe place to leave overnight. The State Operations Centre tasked Water Police to the scene, however once Police had arrived the vessel was fully submerged.
- On the 12th of December 2018, lifeguards at South Kingscliff contacted the State Operations Centre requesting an ambulance for a 60 year old male patient who had been hit by a surfboard to the left thigh. The patient was conscious however a very swollen leg was had. Lifeguards monitored the patient until arrival of the ambulance which transported them to hospital.
- On the 1st of January 2019, lifeguards at North Pottsville contacted the State Operations Centre requesting assistance from ambulance for a 13 year old male who sustained a neck injury following a dumping wave. Lifeguards on duty provided assistance and reassurance until the ambulance arrived, whereby, the patient was then taken to Tweed Hospital for further medical checks.
- On the 7th of January 2019, lifeguards advised the State Operations Centre of an incident they responded to opposite Kingscliff Surf Club for a patient who sustained head injuries. The lifeguards provided First Aid to the patient, however, a member of the public had already called the public and as a result, the ambulance arrived shortly after to take over. Parents of the patient were advised by the paramedics to take him to Tweed Hospital for further medical care.
- On the 9th of January 2019, lifeguards at South Pottsville contacted the State Operations Centre to advise them of a missing male who had a history of seizures. North Pottsville beach was closed and the lifeguards assisted South Pottsville lifeguards in the search. The person of interest was found and rescued from the water by his family after he had had a seizure in the creek. The family called the ambulance whilst the lifeguards administered oxygen. The ambulance arrived and transported the patient to the Tweed Hospital.
- On the 14th of January 2019, the State Operations Centre requested assistance from ambulance at Fingal Beach for a potential puncture wound from a sting ray barb. The patient was unsure if the barb was still their right foot, however, two puncture wounds were found. The lifeguards responded to the patient whilst they waited for the ambulance and transferred them to the ambulance conscious and breathing once they arrived. The patient was transferred to Tweed Hospital.

- On the 16th of January 2019, lifeguards at Kingscliff were advised of a missing 6 year old girl. She was last seen in the water at Kingscliff, south of the Marine Rescue Base. Lifeguards prepared jet skis to search the surrounding area and kept in contact with police. Police informed the lifeguards to stand down as the person of interest was found safe and well.
- On the 22nd of January 2019, lifeguards at Kingscliff contacted the State Operations Centre requesting an ambulance for a 15 year old male who had been stung. The patient was conscious and alert, however, experiencing severe pain and difficulties breathing. On arrival of the ambulance, the patient was assessed by paramedics and released into the care of friends.
- On the 23rd of January 2019, lifeguards were advised of a female with a suspected mental illness camping in the dunes 100 metres of the North Kingscliff lifeguard base. The lifeguards approached the scene, however, the person of interest entered the water fully clothed and acted aggressively towards the lifeguards. Police were advised of the incident and sent a crew to attend the scene.
- On the 23rd of January 2019, lifeguards were called out to attend 2 people on a broken down jet ski, drifting north of Fingal with swell increasing. Both people were wearing life jackets with no injuries, however, were frightened. Lifeguards launched a jet ski to attend the scene 1 kilometre offshore north of Kingscliff, however, upon better view from the club house the location trajectory changed; drifting south. Lifeguards were then prompted to use the Cudgen IRB to tow the persons of interest back to shore. All persons were accounted for and no medical assistance was required.
- On the 28th of January 2019, Casuarina lifeguards became aware of a shrub fire 400 metres north of the patrol area. Lifeguards attended the area and attempted to clear the area of crowds whilst the fire brigade addressed the fire. Fire was eventually ceased by the fire brigade.
