

From 1 October, promoting the Tweed and managing the Tweed's three Visitor Information Centres will be the responsibility of new contract, DR Tourism.

New operator announced for tourism in the Tweed

DR Tourism has won the contract to promote tourism in the Tweed following a decision at last Thursday's Council meeting. The Hervey Bay-based company was selected by a panel chaired by an independent procurement expert.

The current operator, Destination Tweed, will continue to run tourism services until 30 September 2018.

The value of the contract is \$950,000 per year before GST, with the contract running for four years, with an option of four more years, subject to performance.

DR Tourism will operate from the Tweed, will employ local people and will establish an advisory board made up of local tourism operators.

DR Tourism Director, Robbie Cornelius said the company was "delighted and very excited about providing tourism and destination marketing services for Tweed Shire Council".

"We want to build on the region's reputation, will set up a local office and we are seeking local staff to employ in the new business," Mr Cornelius said.

"The new entity will be led by a highly experienced General

Manager with passion, knowledge and a love of the Tweed region. They will be supported by our specialist DR Tourism team bringing much respect for what the region has, some fresh ideas and a collaborative approach.

"Our focus will be to build networks and work closely with both industry and Council as we build on the legacy from Destination Tweed," he said.

In September 2017, Council considered options available for providing tourism promotion services and resolved to tender. It was a two-stage process, with a public expression of interest. In April 2018, Council resolved to invite five selected respondents to the EO to submit tenders.

An independent procurement expert, LG Procurement, was appointed to run the procurement process. The panel was overseen by an independent probity advisor and included an independent industry advisor.

The newly-developed 'The Tweed' destination brand is solely owned by Tweed Shire Council and will continue under DR Tourism under licence.

Come along to our Local Government Week events

It's Local Government Week next week (30 July-5 August), a great opportunity to showcase all of the ways that Council is a part of the community and share the importance of councils to residents, ratepayers and businesses.

We've got some great community events planned:

Saturday 28 July – Cool Cats Workshop at Kingscliff, 2pm-4.30pm. All welcome, please book on (02) 6670 2400.

Sunday 29 July – National Tree Day Community Tree Planting, 9am - 1pm, Bilambil Road Park, Corner Bilambil Road and Naponyah Road, Bilambil.

Sunday 29 July - Love Pets Love Wildlife – Celebrating the animals in our lives, 10am-1pm, Rowan Robinson Park, Kingscliff.

Monday 30 July – Recycling Facility visit - 10.30am-11.15pm, Chinderah Materials Recovery Facility, 35 Morton Street Chinderah. Bookings must be made by emailing waste@tweed.nsw.gov.au or by calling (02) 6670 2523.

Tuesday 31 July – Open day at Clarrie Hall Dam. 10am - 12pm, Clarrie Hall Dam, Clarrie Hall Dam Rd, Doon Doon

Wednesday 1 August – Power to the Tweed, 9.30am - 10.30am, Tweed Heads Library meeting room, Wharf Street, Tweed Heads, 12pm - 1pm, Kingscliff Library meeting room, 1 Turnock Street, Kingscliff and 3pm - 4pm, Murwillumbah Library,

10 Tumbulgum Road, Murwillumbah. Insights on where Tweed's electricity comes from, the growth in solar and batteries, Council's renewable energy plans, as well as simple tips and tricks to get the best value from electricity at your place. Call Council on (02) 6670 2400 to book.

Thursday 2 August - Museum Collection Store Tour, 11am - 12pm, Museum Collection Store, 23 Honeyeater Circuit, South Murwillumbah. Bookings essential - call (02) 6670 2493 or email trm@tweed.nsw.gov.au.

Friday 3 August - Talk by Gallery Director - 'Connecting with your Collection', in conjunction with the Gallery's 30th Anniversary celebrations, 11am -12pm.

Saturday 4 August – Microchipping Day, 9am - 1pm, Tweed Shire Council Impounding Facility, Leddays Creek Road, Stotts Creek. To book visit www.tweed.nsw.gov.au/MicrochippingDay

Sunday 5 August – The Tweed Regional Museum Tweed Heads branch (230 Kennedy Drive) will now be open to the public EVERY Sunday 10am - 4pm.

For more information on any of these events, visit www.tweed.nsw.gov.au/LGKW or call Council on (02) 6670 2400.

What do you think about mobile coverage in the Tweed?

Residents with concerns about mobile phone coverage in the Tweed can make a submission to the 2018 Regional Telecommunications Review.

An independent committee is conducting a review of regional telecommunications issues and want to hear from you about your experiences.

As part of the review, the Committee will consider how regional communities can maximise the economic benefits of digital technologies, how regional Australians use their

broadband service and how they could achieve further benefits from it and the outcomes achieved through the Mobile Black Spot Program, and remaining gaps in mobile coverage in regional Australia.

Input will help inform Government about current regional telecommunications issues, how Australians are using these services, and examine what is needed in the future.

To have your say, visit <http://www.rtrc.gov.au/home.html> Comment is open until 5 August 2018.

Renovating or building? We'd love to hear from you

Have you recently built or renovated your home, or are you planning to?

Council is asking people who are planning to build or renovate, or have recently built or renovated, to help us with a survey about your priorities and goals and whether sustainable, durable and liveable design features are high on your list.

If you've recently built, we'd also love to hear about your experiences about what is most important to you and if there were any barriers to achieving your goals.

You can take the Building Better Homes Survey at www.surveymonkey.com/r/8RC9MLX

The survey looks at competing priorities of cost, liveability, reduced running costs, increase property values, and even reduced environmental impact.

It's part of a project which aims to empower people to make decisions and ask questions of their builders to increase the usefulness and liveability of their home for now and for future generations.

Education Officer- Building and Environmental Health, Mel Tate said there were hundreds of decisions to make when building or renovating that it is so easy to miss key things.

"If Council can better understand these priorities and challenges, we can work with home buyers and builders to make the hundreds of choices so much easier and clearer," Ms Tate said.

If you have any questions, feel free to contact Mel Tate on (02) 6670 2400 or email mtate@tweed.nsw.gov.au.

Boomer the performing cat gives a high five to Council's Koonee Koala. Both will be out and about at Sunday's Love Pets Love Wildlife Event at Kingscliff – a great free event for all the family.

Come and check out the performing animals

Love animals? Then make sure you head down to Kingscliff's new Rowan Robinson park on Sunday for the Love Pets Love Wildlife event from 10am-1pm.

Love Pets Love Wildlife will showcase some special animals that have been trained to perform or help people and wildlife. Animal trainer Shannon Maguire and Sam, the wildlife detection dog, will demonstrate how she can find koalas.

You can have a close encounter at the Currumbin Wildlife Show, and see fascinating photos from wildlife cameras in the Tweed 'Wildlife After Dark' slideshow in Kingscliff Hall.

Catmantoo - cat trainer extraordinaire - will be there with his performing cats. Meet 'Didga' who was adopted from a shelter and stylish 'high-fiving' cat 'Boomer'. Both have Guinness world records and will be performing on the day.

At 11am, an expert Q&A panel will answer audience questions on the topic Pets and Wildlife - How to look after both.

There are plenty of prizes and giveaways including a Tweed Eco Cruise for two with lunch; pet hampers and cat scratching posts. Meet one of the many 'greeters' on the morning for entry forms and information.

It's going to be a great day with fun kids' activities, pet stalls, the latest designs in cat enclosures, pet advice and a sausage sizzle with all proceeds going to the Tweed Valley Wildlife Carers.

For more information, please contact Council's Contact Centre on (02) 6670 2400. This event is partially funded by the NSW Government's Environmental Trust.

Oil spills are a risk to our waterways

Did you know that Council has received over 20 complaints about oil spill this year? There's plenty we can do to reduce oil spills and reduce the pollution risk to our waterways.

Unknown chemical spills on land, roads and gutters are required to be assessed by the NSW Fire Service before they can be cleaned up. Ring 000 to report these.

Let's ensure that we don't pollute our waterways and don't flood our emergency services with unnecessary clean up by following three easy steps:

1. **Clean up safely** – if it is just a few litres of engine oil this can be cleaned up safely by adding kitty litter or oil absorbent (even dry sand or soil), then shovel into bags and put in your red topped bin.
2. **Catch leaks** – put down cardboard or a drop sheet in driveways in you know your car is leaking
3. **Fix it up** – get leaks fixed as soon as possible

If you need to report a spill, you will help best by leaving your contact details in case we need more information.

Remember: all liquid waste oils, paints and chemicals can be dropped in at our Stotts Creek Resource Recovery Centre for **FREE**. For information call (02) 6670 7400.

Uh-oh – an oil spill can be costly for emergency services and our waterways.

Time to return your South M'bah surveys

Time is running out for South Murwillumbah residents and businesses to complete and return their South Murwillumbah Floodplain Risk Management Study questionnaires, with responses due by Monday 30 July.

Council recently delivered the short questionnaire to every house and business mailbox in South Murwillumbah, seeking local knowledge about flooding to assist Council to identify measures that will best manage the frequency, extent and depth of flooding and guide future development and re-development in a way that is compatible with the flood risk.

The study, partly funded by the NSW Government and being undertaken by specialist flood consultants Catchment Simulation Solutions, will build on previous flood investigations and provide Council and emergency services with a detailed understanding of the existing flooding problems across South Murwillumbah.

"The questionnaire was delivered to about 700 premises in the South Murwillumbah area and will take about 10 minutes to complete," Manager Roads and Stormwater Danny Rose said. "We hope that the responses will clarify and add to our information about flooding and flood preparedness to help us better understand the behaviour of floods in the area and assess the best options to manage the significant risk they pose to life and property."

In March 2017, South Murwillumbah was one of the hardest hit areas sustaining widespread damage and losses to businesses, homes and public infrastructure. Flooding rapidly cuts road access to the area, which presents major challenges to emergency services who put their lives at risk attempting several rescues last year.

Since the 2017 flood, Council has begun a number of projects designed to reduce the flood risk across South Murwillumbah, including voluntary house purchasing schemes and the ground-breaking \$3 million industrial land swap. These projects are partly funded by the State Government.

Anyone who has misplaced their questionnaire can complete the survey online at www.southmurwillumbah.frms.com.au/.

War on Tweed's recycling waste

The ABC television series **War on Waste** has definitely got Australia talking seriously about ways to cut waste.

Here are answers to some of the frequently asked questions Council receives about recycling in Tweed Shire

Q: Does Tweed Shire send it's recycling to landfill?

A: No.

Q: Where does the recycling from the yellow bins go?

A: The recycling collected from Tweed's yellow bins is sorted at the Chinderah Materials Recycling Facility (MRF). Reclaimed glass is sent to Brisbane to be recycled into new products. Paper, plastics and metals are sold to South East Asia.

Q: Why has recycling been in the news lately?

A: Across Australia high levels of non-recyclable items mixed in with the recycling have been contaminating, and reducing the quality of the reclaimed products created at recycling facilities. Due to high levels of contamination China, traditionally the biggest

importer of Australian recycled materials, has recently stopped buying Australian recycled paper, plastic and metal.

Q: What can residents of Tweed Shire do?

A: Make sure you are recycling right to maintain the quality of recycling in your yellow bin.

Tweed yellow bins accept clean paper and cardboard, firm plastic containers and bottles, clean metal and aluminum lids, cans and containers. The following should never be placed in yellow bins soft plastic, plastic bags, scrap metal or parts, plastic lids.

Visit www.tweed.nsw.gov.au/Waste for more information on what can be recycled in your yellow bin, and what can be dropped off and recycled for FREE at Stotts Creek Resource Recovery contact council on (02) 6670 2400.

Fill out the recycling survey in the link below so that we can help you recycle better: www.surveymonkey.com/r/Recycle_NEW

Call first to avoid a stink over a plumber's bill

Tweed residents who think the sewer system is blocked should call Council 24x7 before they call a plumber to avoid a stink over a plumber's bill.

Council can quickly determine if the blockage is Council's responsibility or the responsibility of the property owner by checking the sewer inspection shaft.

The inspection shaft is the point where responsibility transfers from the Council to the property owner.

The property owner is responsible for ensuring the inspection shaft is visible and accessible (not covered with vegetation etc) and for anything that happens between the shaft and their property's drainage. Council is responsible for anything that happens downstream of the shaft.

If the shaft:

- contains wastewater or water, it's probably Council's problem and Council will fix it
- is clear, it's probably the owner's problem and the owner will need to hire a plumber at their own expense, or
- contains tree roots, it may be a shared problem and the cost to fix it also will be shared.

However, there also is a grey area where inspection shafts have been poorly installed or modified. In these cases, the cost to fix is determined based on the cause.

While Council can reimburse some plumbers' bills if the sewer blockage is Council's responsibility, it does not do so automatically.

Council requires evidence that it was Council's responsibility. Council may accept evidence from a plumber but if Council is called first, that evidence is established upfront and will not be challenged.

In most cases, if a property owner engages a plumber, the property owner is liable for the bill.

"We are receiving too many bills from plumbers we have not engaged and residents are being disappointed to learn that Council will not cover the cost," Senior Engineer Operations and Maintenance Peter Haywood said.

"All Tweed plumbers know that Council should be called first to determine whether it's a Council problem. They are asked to advise customers of this before they respond to a callout for a blocked sewer."

To avoid blockages in the sewer system, customers are reminded that many items are not meant to be flushed. Despite their name, 'flushable' wipes are not flushable and are increasing causing sewer blockages.

Council can be contacted about sewer issues at any time day or night by phoning (02) 6670 2400 in office hours or 1800 818 326 after hours.

Medium density housing code changes deferred

Tweed Shire Council has been successful in its request for a 12-month deferral of a NSW planning code which would allow for quicker and easier approvals for medium density housing.

On 6 April 2018 the State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 (Codes SEPP) was amended to include the Low Rise Medium Density Housing Code (MDH Code).

The Code operates to expand complying development to include the erection, alteration of or addition to dual occupancy, manor house and multi dwelling developments in zones where they are permitted by the Local Environmental Plan (LEP). These development types are currently permissible in the R2 Low Density Residential Zone in the Tweed Shire.

On 5 July 2018 an amendment to the Code was published that deferred the application of the MDH Code until 1 July 2019 for 47

local government areas. Tweed Shire was included on this list.

The deferral provides councils with 12 months to consider the application of the code in their residential areas and, if necessary, to pursue amendments to their LEPs to regulate or prohibit medium density housing in locations where they do not want to the Code to operate.

Land owners, developers and certifiers should be aware of the deferral of the MDH Code and the resulting effect that all medium density development still requires development consent from Council until such time as the MDH Code becomes operational for the Tweed local government area.

Further information on this and other recent planning legislation changes is available by phoning Council's Strategic Planning Unit on (02) 6670 2503, or on the NSW Department of Planning's website www.planning.nsw.gov.au/policy-and-legislation

Access ALL AREAS

July edition

Access means you can go where you need to in the community. This includes into buildings, on transport, in parks and to events. It means there are toilets you can use. Inclusion means you feel part of the community and you get fair service. To tell us if there are barriers to access in the community contact Council at the Customer Service Centre on (02) 6670 2400 or email tsc@tweed.nsw.gov.au.

Nominations open

Access and Inclusion Awards 2018

Celebrating International Day of People with Disability

We want to show the community who is doing a great job for access and inclusion in Tweed Shire.

Make a nomination

Do you know a business, organisation, community group or individual who should be recognised for making our community a place where everyone can join in?

For a nomination form go to www.tweed.nsw.gov.au/AccessAndInclusionNominationForm or phone (02) 6670 2400

Designated Accessible Parking Bays (DAPBs)

These spaces are reserved parking for people with an authorised parking permit. Commonwealth law covers where these spaces go and how they are designed. NSW law covers the use of these spaces. Council has authority to police the use of DAPBs on roads and in public car parks. There is a big fine and loss of points for using these spaces without a permit.

People with permits need these spaces so they can be part of the community, do their shopping and other business.

Everyone has a responsibility to make sure designated accessible parking bays are for authorised users only. If you need help making your NDIS plan you can call Ability Linkers on 1300 792 940, Local Area Coordinators on 1800 522 679 or go to www.ndis.gov.au or phone 1800 800 110.

Development Application Determinations

Notification of Development Application Determinations for the purposes of Section 4.59 of the *Environmental Planning and Assessment Act, 1979* (as amended).

removal) towards offsets required for compensatory plantings.

The **DA17/0231** Planning Agreement will be available for viewing from Wednesday, 25 July 2018 to Friday, 24 August 2018 on Council's website www.tweed.nsw.gov.au/OnExhibition.

You are encouraged to view the draft Planning Agreement and invited to make a submission. This must be made in writing and received by Council no later than the close of business on Friday, 24 August 2018.

For enquiries please contact Lydia Charman, Development Assessment on (02) 6670 2400 or email tsc@tweed.nsw.gov.au

All submissions should be addressed as follows:

DA17/0231 - Planning Agreement
General Manager, Tweed Shire Council, PO Box 816, Murwillumbah NSW 2484.

Week Starting 23 July 2018

Korns Bridge, reduced width and under traffic control: RMS is inspecting Korns Bridge on Thursday and Friday 26 and 27 July from 7am – 5pm. A scissor lift will be on the bridge deck, reducing the width of the lane during the inspection. The bridge will be under traffic control, stopping traffic in each direction when required. Any truck wanting to cross will have to wait until the scissor lift is moved out of the way for them to do so.

Expect short delays

Banora Point: water main construction Pioneer Parade and Sexton Hill Drive.

Cudgen: Sub-division works may cause delays on Crescent Street between Tweed Coast Road and Cudgen Road. There are two separate subdivisions with road works and trucks accessing the sites (reduced speed limits in place).

Dunbible: road reconstruction Stokers Road.

Eviron: road construction Eviron Road / Haul Road.

Kingscliff: Cudgen Creek boardwalk reconstruction.

Murwillumbah: replace sewer main Harwood Street; replace kerb and gutter William Street

Numinbah: temporary traffic lights installed at culvert construction Pat Smith Creek.

Terranora: possible short delays on Henry Lawson Dr due to subdivision works (Coach Road to Tennis Courts).

Tweed Heads: road reconstruction Enid Street; kerb replacement and road reconstruction

footpath construction Wharf Street near Twin Towns

Tweed Heads South: kerb and gutter upgrade Kirkwood Road, between Fraser Drive and Philp Parade.

Uki: earthworks, kerb and gutter and road reconstruction Blackspot Programme Kyogle Road, between Glenock Road and Gold Gully; and resealing, patching various locations Kyogle Road.

Asphalt rejuvenation works will take place on the below roads for several hours during the week, weather permitting:

Banora Point: St Andrews and Firewheel ways; Liana, Belah, Jacobina, Donegal, Galway, Kintyre courts; Tralee, Kildare drives; Banora Boulevard; Caravel Place; Shamrock Avenue; Clonakilty Close; The Parapet

Casuarina: Coogera, She-Oak, Beech, Clara lanes; Riberry Drive; Cudgerie Court; and Cathium Way.

Kingscliff: Bondi Place

Terranora: Campfire, Shearer courts; Valleyview and Warrego places; Cascade Road

Tweed Heads: Bailey Street; Laurel Place; Silkwood Terrace.

Maintenance South – Resheeting Hazelbrook Road; bridge deck repairs Limpinwood Valley Road; maintenance Tweed Valley Way and defect repairs Tyalgum and Burringbar areas.

Maintenance North – Tweed Valley Way and off roads; Tweed Coast Road and off roads.

Local Heritage Assistance Grants

Council opens applications for Local Heritage Assistance Grants

Applications for Local Heritage Assistance Fund grants for 2018/2019 are now being accepted. The purpose of the grant program is to encourage the conservation of heritage items in the Tweed.

Priority will be given to applications for minor works or maintenance to items that are individually listed in the applicable Tweed Local Environmental Plan or buildings located within heritage conservation areas.

Grants of between \$1,000 and \$4,000 are available to successful applicants on a dollar for dollar basis. This program is part funded by the NSW Office of Environment and Heritage.

The closing date for grant applications is Wednesday 22 August 2018 at 4pm.

Funding will not be granted for work that has taken place prior to the grant being offered or approved.

Grant Guidelines, application forms and further information are available from the Murwillumbah Civic Centre on Tumbulgum Rd, from Council's website www.tweed.nsw.gov.au under Heritage, or by phoning Strategic Planning on (02) 6670 2503.
