

Tweed Shire Council wishes to acknowledge the Ngandawal and Minyungbal speaking people of the Bundjalung country in particular the Goodjinburra, Tul-gi-gin and Moorung - Moobah clans as being the traditional owners and custodians of the land and waters within the Tweed Shire boundaries. Council also acknowledges and respects the Tweed Aboriginal community's right to speak for its Country and to care for its traditional Country in accordance with its laws, customs and traditions.

The new pathway at Black Rocks Sports Field at Pottsville has been completed.

## New pathway completed at Black Rocks

A new perimeter pathway around the sports field at Black Rocks and a path connecting the Men's Shed with the accessible toilet and car park was recently completed at Pottsville.

Minor remedial work was also completed on the carpark and entry.

The new 550-metre (1.2 metre wide) asphalt path will provide additional opportunities for the community to be

active and healthy.

The \$63,000 project was made possible thanks to \$50,000 from the NSW Government - Stronger Country Communities Funding Program - Round 4 and contributions from Council, the Pottsville Fun Croquet Club and Pottsville and District Men's Shed.

## Motorists asked to slow down through roadworks

Council's Flood Restoration team is reminding motorists to slow down at roadworks sites and watch for changed traffic conditions including reduced speed limits, as Council continues its mammoth repair job with contractors.

On Kyogle Road, accidents and several near misses have been reported by project managers.

"There have been 2 motor vehicle accidents and several near misses along this stretch of road due to motorists not adhering to signage, reduced speed zones and traffic lights," Council project manager Kristian Penrose said.

Motorists can expect further changes to roadworks speed limits in coming months, as works enter the construction phase at sites across the Shire as Council works to deliver a safe and connected local road network.

Speed zones are designed to keep road crews and motorists safe and are enforceable by law.

At Tyalgum Road, progress continues in repairing 2 major landslips with detailed design work on the \$20m project expected to be completed by late May and on-site work expected to start around the same time.

Contractor See Civil is targeting to put a temporary track in place by November this year, giving safe access around the construction site.

## Tweed Coast Road investigation works

Council is designing the 4-lane upgrade of Tweed Coast Road to accommodate planned traffic growth from new residential development at Kingscliff and Kings Forest.

Experts have been engaged to carry out investigation works in the coming weeks to enable the design of pavements and retaining walls, as well as progress environmental studies and geotechnical investigations.

Works will be carried out in several locations along Tweed Coast Road from Cudgen to Chinderah.

Preparation works have started in anticipation of the borehole drilling works from Cudgen Road to the M1, which is scheduled from Wednesday 26 April to Tuesday 9 May, between 7 am to 4 pm. There will be no works carried out on weekends.

At times, while geotechnical drilling works are underway, the existing 2 lane road may be reduced to one lane to allow crews and machinery to work safely from within the roadway. This may cause traffic delays of up to 15 minutes. Please find an alternate route where possible.

Ground penetrating radar investigations will also be carried out on Monday 8 and Tuesday 9 May, between 7 am to 4 pm.

Visit [tweed.nsw.gov.au/roadworks-closures](http://tweed.nsw.gov.au/roadworks-closures) for updates and more details about the works.

## Foysters Jetty work

Rehabilitation works will start on Foysters Jetty on Minjungbal Drive at Tweed Heads South over the coming weeks and will involve replacing deteriorated sections of the jetty.

Preliminary survey works started this week to assess the condition of timber and concrete. Works will be completed on land, in boats and with divers in the water.

Work is expected to take 12 weeks and access to the jetty will be limited during this time.

Gates onsite will be locked out of hours, and the site will be fenced during construction.

Please avoid the area while works are completed, to allow the contractor to safely complete these preliminary checks and construction that will follow in the weeks to come.

This is just one way Council is building a vibrant community that is a great place to live and visit.

# Car park upgrade at off-leash dog park

Council will upgrade the car park at the off-leash dog park at John Baker Reserve, Darlington Drive, Banora Point next week as part of Stage 2 of the project.

The work will start on Wednesday 26 April and take approximately 6 weeks (weather permitting). Work includes:

- car park resurfacing (asphalt) and line marking
- pedestrian and vehicle access improvements
- accessible parking bay
- installation of wheel stops
- drainage improvements.

During construction, the car park will be closed. Vehicle access to the carpark will be temporary impacted however,

the off-leash dog park will remain open.

An upgrade to the car park at the off-leash dog park at Bray Park Reserve, Murwillumbah will be completed following the work at John Baker Reserve.

Residents and visitors to the Tweed have been enjoying the new dog parks since opening in January 2022 as part of Council's commitment to providing our community with opportunities to be active and healthy.

**Right: Work to upgrade the car park at the off-leash dog park at Banora Point will start next week.**

# Repairs at Pottsville Environment Park

Pottsville Environment Park will soon undergo some repairs and upgrades to deteriorating walkways and platforms.

Once completed, this will provide an improved visitor experience.

The Melaleuca track and the eastern section of the Eucalyptus track are currently closed to the public for safety reasons.

Many of the timber footbridges and platforms which elevate the tracks above wet ground were built in the 1980s and need to be replaced. Council is currently assessing the park's infrastructure, costing repairs and replacements and investigating options for sustainable materials to better cope with the environmental conditions in the park.

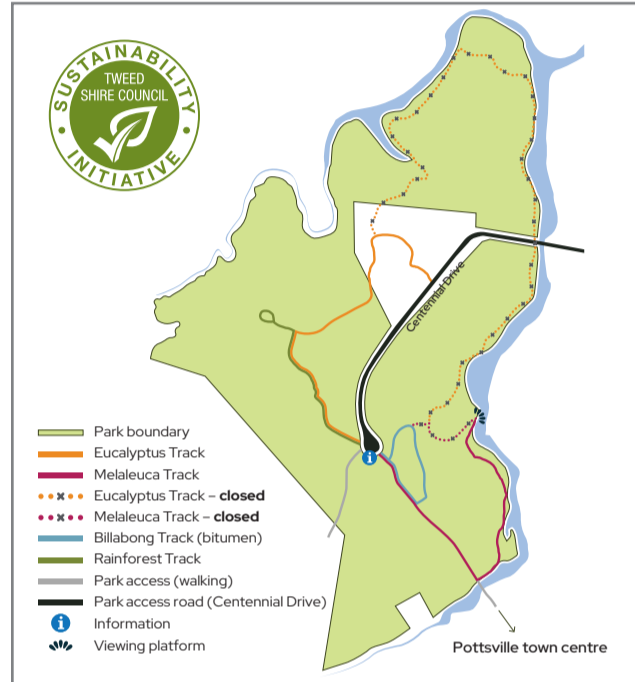

Areas of highest deterioration will be prioritised for immediate repairs, with longer term upgrades and visitor experience improvements to follow.

Please do not ignore the closed track signs or barriers and take care when in the park.

Pottsville Environment Park is an important part of Council's natural area network. It contains a rich variety of vegetation types, important ecosystems and habitats, and

an extensive network of walking trails, pathways and viewing platforms, within 63 hectares of public land.

Maintenance of natural areas is one way Council is protecting the Tweed's environment for current and future generations.

### Help shape the future of sports and active recreation across the Tweed

Demand for sports and recreation facilities is growing in our communities across the Shire. What does this mean for you and being physically active, your sports, your clubs and your facilities?

We are conducting a survey to better understand the needs and interests of the Tweed community in being physically active and in participating in sport across the Shire. The survey will help identify how our community would like to be physically active, the sports that are most popular, the facilities that are most needed and the challenges that are being faced.

#### Have your say

We want to make sport and active recreation accessible and enjoyable for everyone. Please take a few minutes to fill out the survey, share it with family and friends.

The survey closes at 5 pm, 5 May 2023.
