Mineral Resource Audit of Tweed Shire

July, 2014

REFERRAL AREA

-  **Identified Resource Area** – containing active mineral, petroleum and/or extractive operations and/or identified resources. Development within these areas could adversely effect or be affected by current or future resource development operations. Any proposed zoning changes or developments that may prohibit or restrict current or potential future operations in these areas should be referred to Resources & Energy Division of NSW Trade & Investment.
-  **Potential Resource Area** – containing potential mineral, petroleum and/or extractive resources. Development within these areas could adversely effect or be affected by future resource development operations. Any proposed zoning changes or developments that may prohibit or restrict potential future operations in these areas should be referred to Resources & Energy Division of NSW Trade & Investment.
-  **Transition Area** – areas adjacent to identified resource areas. Development within these areas could adversely effect or be affected by current or future resource development operations in the adjacent resource areas. Any proposed zoning changes or developments that may prohibit or restrict current or potential future operations in the adjacent resource areas should be referred to Resources & Energy Division of NSW Trade & Investment.

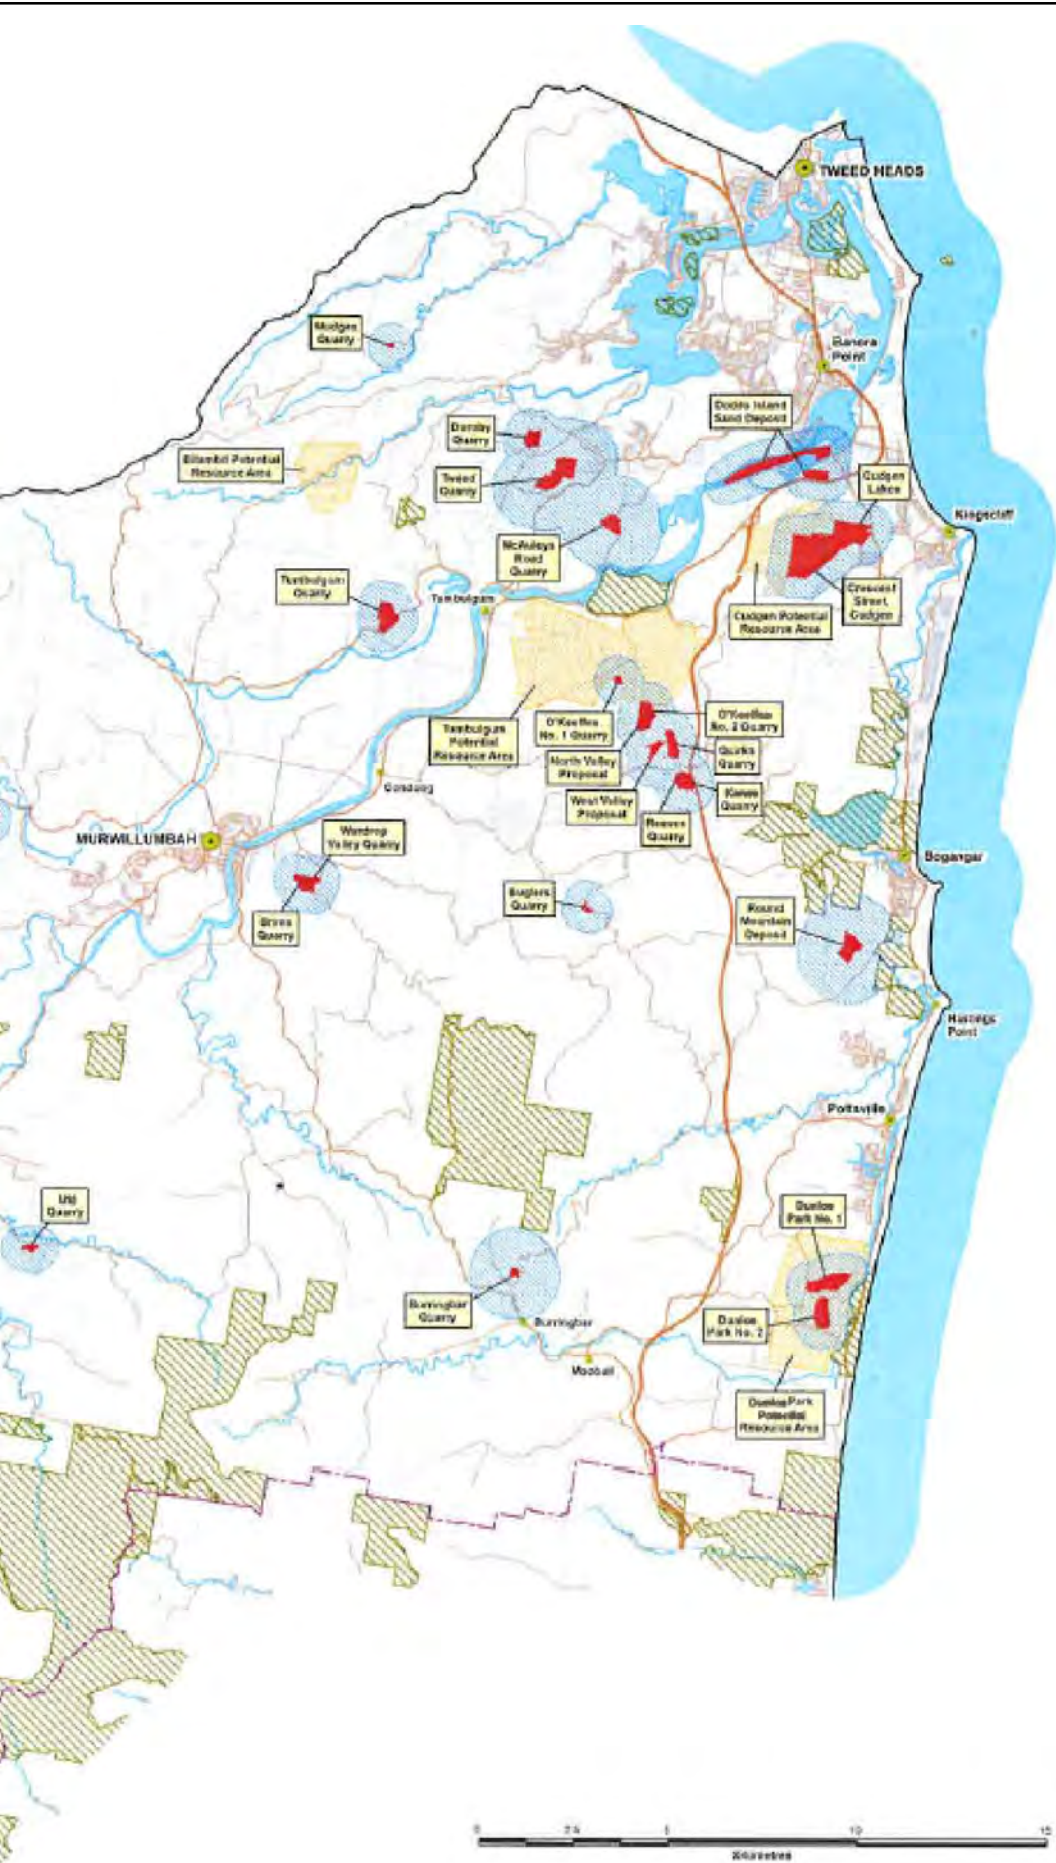

CULTURAL FEATURES
