

Construction – major and minor

Criteria

Type of supplier	Sustainability criteria/KPIs	Criteria	Sustainability goal addressed
Construction contractor Consultancy	Pollution threat	Demonstrate how you will optimise the use of recycled and reused materials at the levels allowed under current standards and specifications; and source materials that avoid pollution at the point of manufacture. How will this apply to this project?	Avoid waste Economic growth
Construction contractor	Waste reduction during construction	Describe the processes you will use to decrease waste to landfill, including processes to enable the recovery, reuse and recycling of construction materials on and off site. How will you report progress back to Council?	Avoid waste Biodiversity Economic growth
Construction contractor Consultancy	Whole of life impacts and opportunities	Council is aiming for Net Zero emissions by 2030 and diverting 70% of Council managed waste from landfill by 2025. Please describe how your proposed design, materials and construction methodology will provide opportunities to contribute to these goals over the life of the asset (for example: recycled material use, innovative design, low embodied carbon, low operational emissions, ease of reparability, resilience to extreme weather events, adaptability to change in use).	Emissions reduction Avoid waste Renewable energy Biodiversity Sustainable water supply Economic growth
Construction contractor Consultancy	Diversity, inclusion and industry development	<p>Please specify how do you support diversity and inclusion in the workforce.</p> <p>For example, do you partner with disability employment or Aboriginal employment service providers? If so, please provide details.</p> <p>Do you have strategies targeting diversity and inclusion, if so, what are they? How do you actively encourage employment for people from a diverse range of backgrounds and those experiencing disadvantage?</p> <p>Do you provide traineeship/apprenticeship/cadet/graduate training program opportunities or other employment pathways for the identified groups? If so, please provide details.</p>	<p>Supporting access to meaningful employment</p> <p>RAP implementation</p>
