

LIVING the TWEED LOVING

## Delivery Program 2017–2022 Operational Plan 2021–2022

## Council values and statements What we value

'Living and loving the Tweed'

We look after people and our places, explore all opportunities, and are proud of our passionate approach.

We care about each other, choose to be here, and are in this together.

We have conversations where everyone can contribute, and we are willing to have a go.

We put back in to make a difference, so that our Tweed community is even better tomorrow than it is today.

## Vision

The Tweed will be recognised for its desirable lifestyle, strong community, unique character and environment and the opportunities its residents enjoy.

## Mission

Working with community and partners, provide leadership in facilitating and delivering services that manage growth sustainably, create opportunity and enhance the value of our civic and natural assets for this and future generations.

# Statement of acknowledgement of the Bundjalung Aboriginal Nation

We wish to recognise the generations of the local Aboriginal people of the Bundjalung Nation who have lived in and derived their physical and spiritual needs from the forests, rivers, lakes and streams of this beautiful valley over many thousands of years as the traditional owners and custodians of these lands.

## A message from the General Manager

The Tweed is a highly desirable place to live. Next 20 years, it expected an additional 76,200 people will join us in calling the Tweed their home. Our challenge is to accommodate this growth with adequate infrastructure without compromising our internationally significant natural environment. We continue to be committed to providing opportunities for our young people, preparing for an ageing population, supporting tourism, agriculture and economic development and doing our part to address climate change through direct action and mitigation.

To ensure that we plan for our long term future, the Tweed *Community Strategic Plan 2017–2027* (CSP) has identified our community's vision for the future of the Tweed, including long-term goals, strategies to get there and how to measure our progress towards that vision. The CSP was developed after many months of consultation with the local community to support Council to design plans that are in line with the community expectations.

Four key themes were identified in the CSP:

- Leaving a legacy: Looking out for future generations
- Making decisions with you: We're in this together
- People, places and moving around: Who we are and how we live
- Behind the scenes: Providing support to make it happen

This Delivery Program and Operational Plan sets out the specific programs, projects and activities that Council plans to complete in the next 12 months to work toward achieving the long term goals in the four key themes outlined in the CSP. It also outlines the expected financial and other resources required to deliver these programs and how Council intends to measure its progress.

In addition to continuing to provide safe roads, clean water, hygienic waste management and a broad range of recreational facilities to our communities, in the 2021/22 financial year Council will progress some major projects in the Tweed. Priorities will include the Koala Management Plan, Council's Renewable Energy Action Plan, works associated with the waste services master plan for the redevelopment of Stotts Creek Resource Recovery Centre, the Northern Rivers Rail Trail, construction of a new animal pound facility and the planning phase for raising of Clarrie Hall dam to name a few.

Council remains committed to working together with our communities to take action to achieve progress toward achieving the community's long term vision for the Tweed. By working together, we can ensure Tweed remains a great place to live, work and enjoy.

Troy Green General Manager

## Your elected Council

## The Mayor and Councillors (November 2016 to September 2021)

At the Tweed Shire Council Local Government Election held on Saturday 29 October 2016, the following Councillors were elected to represent The Tweed for the Council term which will now conclude in September 2021 (was originally intended to be September 2020 but extended due to the 12-month deferral of Local Government elections).

- Cr Pryce Allsop
- Cr Reece Byrnes
- Cr Chris Cherry
- Cr Ron Cooper
- Cr Katie Milne
- Cr James Owen
- Cr Warren Polglase

The following Councillors have held the positions of Mayor and Deputy Mayor during the term:

Year	Mayor	Deputy Mayor
2016–17	Cr Katie Milne	Cr Chris Cherry
2017–18	Cr Katie Milne	Cr Reece Byrnes
2018–19	Cr Katie Milne	Cr Chris Cherry
2019–20	Cr Katie Milne	Cr Chris Cherry
2020–21	Cr Chris Cherry	Cr Reece Byrnes

## **Council meetings**

Council meetings are generally held in the Council Chambers at the Murwillumbah Civic and Cultural Centre at Tumbulgum Road, Murwillumbah or the Harvard Room at the Tweed Heads Administration at Brett Street, Tweed Heads on the third Thursday of each month. Occasionally, there may be changes to the date or venue of a Council meeting and this will be communicated through Tweed Link. For meeting dates and times visit www.tweed.nsw.gov.au/councilmeetings

Planning Committee meetings are generally held in the Council Chambers at the Murwillumbah Civic and Cultural Centre at Tumbulgum Road, Murwillumbah or the Harvard Room at the Tweed Heads Administration at Brett Street, Tweed Heads on the first Thursday of each month. These meetings deal exclusively with matters pertaining to land use planning.

These meetings are open to the public. Confidential items are considered in closed sessions, which exclude press and public.

Agendas for meetings are available on Council's website from 8pm on the Tuesday of the week preceding the meeting and all minutes are available as soon as practical following the meeting. Should a long weekend occur on the Monday of the week prior to the meeting, every effort will be made to ensure that agendas will be uploaded by 8pm on the Wednesday night.

Community Access sessions are convened immediately prior to Council meetings and Planning Committee meetings to enable the community to address Councillors on items for Council's consideration. A booking is required and can be made by contacting Council.

Tweed Shire Councillors (left to right): Cr Reece Byrnes, Cr Ron Cooper, Cr Chris Cherry, Cr Katie Milne, Cr James Owen, Cr Warren Polglase and Cr Pryce Allsop.

## Local Government area profile

## Our shire

Acknowledged as one of the **most biodiverse** regions in Australia.

Nestled in the eroded caldera of the largest shield volcano in the southern hemisphere, the Tweed is the largest local government area on the north coast of New South Wales, covering an area of just over 1309 km2. The Tweed adjoins the NSW local government areas of Byron, Lismore and Kyogle, with the Queensland border to its north where it divides the twin towns of Tweed Heads and Coolangatta.

## Our community

The Tweed Shire's population for 2015 was 92,460 and is forecast to grow to 125,953 by 2036. In line with this population growth, the number of dwellings in the Tweed is forecast to grow from 40,452 in 2011 to 56,907 in 2036, with the average household size rising from 2.38 to 2.42 by 2036. Between 2011 and 2036, the age structure forecasts for the Tweed indicate a 50 per cent increase in population under working age (15 years), a 44 per cent increase in population of retirement age, and a 36 per cent increase in population of working age.

## Our economy

The Tweed's annual Gross Regional Product (GRP) is estimated at \$2.89 billion, which represents 0.6 per cent of the state's Gross State Product (GSP). The Tweed has a diverse industry base including agriculture, tourism related industries such as accommodation, cafés/restaurants and retail along with a burgeoning food processing industry. In the year ending June 2014, there were 28,289 local jobs and 6585 local businesses in the Tweed Shire. The key industry sectors are health care and social assistance, retail trade, accommodation and food services, education and training, and construction.

## Our challenge

The predicted increase in population and changing demographics over the next 20 years will require co-ordinated planning between all levels of government, developers and the community to ensure the continued social and physical infrastructure (schools, hospitals, roads, water, sewer, and community facilities) is sustainable and at a level consistent with community expectations. Providing employment opportunities, promoting business investment and advocating for essential transport links to markets, emerging technologies and infrastructure through state and federal government will be essential to maintain the Tweed's positioning as a most desirable and liveable destination.

## Our planning framework

## The Community Engagement Strategy 2018–2022

The Community Engagement Strategy details how Council engages with the community and other relevant stakeholders to develop and complete the long-term strategic plan. It outlines how Council will regularly engage with the community to determine the community's needs and aspirations for the future of the Tweed.

## Community Strategic Plan 2017–2027

The *Community Strategic Plan 2017–2027* is the overarching, visionary document in Council's Integrated Planning and Reporting Framework. It translates the community's key priorities and aspirations into long-term strategic goals that guide the future direction of Tweed Shire. Environmental protection and stronger communities were leading concerns identified during community engagement to create the plan.

Council has a custodial role in developing the Plan, while realising its long-term strategic goals is a shared responsibility between Council, the community and other government and non-government entities.

## Delivery Program 2017–2022 and annual operational plans

The *Delivery Program 2017–2022* and annual operational plans detail Council's role in the delivery of projects and services during the five-year term of the elected council, to realise long-term strategic goals. They detail the delivery of planned projects and services for each year, aligning each action to a budget and outlining any other resourcing issues. Each activity is also assigned to a Council officer who is responsible for its delivery.

Council's progress in delivering each planned project and service is monitored by budget reviews and a set of key performance indicators reported to the community every three months. An Annual Report is also prepared to provide a yearly report on Council's overall progress and an end-of-term report at the conclusion of the five-year term.

## **Resourcing Strategy**

The Resourcing Strategy outlines Council's capacity to manage assets and deliver services over the next 10 years. The Resourcing Strategy's key elements are a *Long-Term Financial Plan*, a *Workforce Management Plan* and *Asset Management Plans*. Council must effectively manage its finances, the sustainability of its workforce and the cost of providing and maintaining community assets and services.

## Implementation timetable

## Delivery Program 2017–2022 and Draft Operational Plan 2021–2022

15 April 2021	Draft Plans presented for consideration by Council.
23 April 2021	Draft Plans placed on public exhibition for a minimum 28 days.
21 May 2021	Public exhibition period closed.
17 June 2021	Council meeting to adopt the combined <i>Delivery</i> <i>Program 2017–2022 and Operational Plan 2021–2022</i>

## **Capital Works Program**

Council will maintain a 10-Year Capital Works Program, supported by its asset management plans, to prioritise the allocation of scarce funds to capital projects and refurbishment programs identified in the Delivery Program.

The long-term financial plan provides realistic projections of available funds, to help determine which projects proceed.

The capital works planning cycle is synchronised with the annual Operational Plan, with works priorities reviewed annually to take elected Council and community expectations into account.

Planned capital works are listed under 'Significant projects/ works' for each service category (identifying the years in which the works are expected to be carried out) and are also listed in the full combined capital works budget listing contained within the 'Financials' section of this document.

## Service graphs (what it costs)

Each of the services contained within this plan contain a graph outlining the cost of the service and the sources of funding utilised to cover this cost. The following definitions are intended to assist with understanding the various terms contained within these graphs:

**Expenditure:** consists of general operating expenses, capital works expenditure, loan payments, internal charges from other services and transfers of funds to reserves for future use.

**General revenue:** consists of general rate income, interest earned on investments, pensioner rebate subsidies and financial assistance grants received.

**Fees and charges:** consist of income received from regulatory fees, private works and general fee for use charges.

**Grants and contributions:** consists of operating and capital grants received from other levels of government, developer contributions and other specific purpose contributions received. Note: Some Council services that are regularly in receipt of grants (e.g. Natural Resource Management services) do not display any grant income on their service graphs. Only those grants that are confirmed at the time of preparing the budget are included in the upcoming budget.

**Reserve revenue:** consists of transfers of funds from accumulated reserves towards the project(s) for which those reserves have been set aside.

**Other revenue:** consists of interest earned on developer contributions, proceeds on sale of assets and internal charges to other services.

#### Asset condition ratings

Key performance indicators (how we measure) for some of the services contained within this plan relate to achieving asset condition ratings to a specified numerical level. The following table is provided in order to assist in understanding what the numerical targets represent:

Condition rating	Community rating	Description of asset condition
0	Brand new	A new asset or recently constructed/reconstructed.
1	Excellent	An asset in excellent overall condition however is not new and shows no signs of distress or defects.
2	Good	Sound construction with good condition and no distortion with limited ageing or may show minor distress upon close inspection such as sporadic fine cracking or isolated minor defects with no associated distortion.
3	Fair	Reasonable construction showing some aging and or signs of distress, such as fine to moderate cracking and or minor distortion. The extent of such defects will typically affect less than 20% of the asset targeted for assessment and can be rectified with minor maintenance works.
4	Poor	Asset displays substantial deterioration (20–50%) of distress. Major renewal work required.
5	Very poor	Asset displays significant locations of distress (greater than 50%). Extensive renewal work required.

## Principal streams, sub-streams and key services

The Community Strategic Plan and related documents including this Delivery Program are structured around four principal streams, each of which is broken into a number of sub-streams. The streams have been developed based on feedback from the community, stakeholders and leaders, and incorporate local, regional, state and national priorities for Council.

	ut for future generations

## Leaving a legacy Looking out for future generations

The Tweed features an environment of world-significant biodiversity and natural beauty, and distinct cultural and built heritage – Council and the community values its protection.

The Tweed community respects and actively participates in the sustainable management of the natural and built environment so we can not only thrive and enjoy it today, but we look after this place we are proud to call home, so future generations can live and love it as well.

Council's role is to work with the community and others to plan strategically for sustainable growth and change, and to support initiatives that help the Tweed retain and enhance its diverse natural and built environments, and to deliver sustainable essential services such as water, sewer and sanitation to meet community needs now and into the future.

## **1.2 Asset Protection**

## 1.2.2 Stormwater Drainage

#### **Our service goal**

To efficiently capture and convey rainfall runoff and release it into the environment safely.

#### What we deliver

## Ensure adequate stormwater drainage infrastructure is provided with new infrastructure works or developments

· Design, construct and maintain stormwater network assets

#### **Responsible Officer**

Manager - Roads and Stormwater

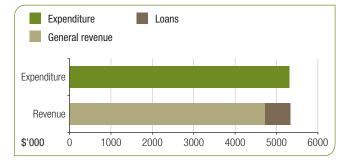

#### What we use to deliver

- Approximately 10 equivalent staff in the Roads and Stormwater Unit have responsibility for providing this and related services.
- Contractors are used for:
  - Specialist studies (e.g. drainage modelling)
  - Contract material supply
  - Contract traffic control
  - Specialist services (e.g. vacuum trucks, aquatic weed removal, pipe relining, pipe jacking/directional drilling, underwater specialists)

#### How we measure

Key	Performance Indicator	Measure	2017–18	2018–19	2019–20	2020–21	2021–22
1	Proportion of stormwater network inspected	%	25	25	25	25	25
2	Volume of rubbish collected and removed from the stormwater system	m <sup>3</sup>	200	200	200	200	200

## 1.3.1 Rubbish and Recycling Services

#### **Our service goal**

To collect, recycle and dispose of residential and commercial waste, manage tip sites and deliver community education so as to divert rubbish from landfill.

#### What we deliver

- Rubbish collection, disposal and recycling services
- Adequate facilities and planning to minimise service interruptions and to cater for current and future demand
- Disposal service for special waste including e-waste, oil, batteries, domestic chemicals and paint, fluorescent bulbs and tubes
- Community education and engagement to support the use of the various resource recovery options

#### **Responsible Officer**

Unit Coordinator - Resource Recovery

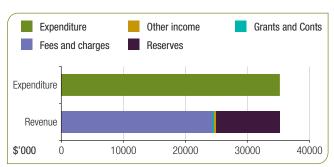

#### What we use to deliver

- 11 Council staff have primary responsibility for providing this service
- These staff are supported by a number of high value contracts which engage an additional 20 plus staff
- The key aspects of this service provided by contractors include recycling and the collection of waste from households

#### How we measure

Key	Performance Indicator	Measure	2017–18	2018–19	2019–20	2020–21	2021–22
1	Diversion from landfill of rubbish collected from red, yellow and green bins	%	60	61	62	63	64
2	Diversion from landfill of all waste received at the tip	%	55	60	60	60	60
3	Household organics collected for reuse (average kg per household per year)	#	300	300	300	300	300
4	Household recycling product collected for reuse (average kg per household per year)	#	270	270	270	270	270
5	Compliance with environmental standards for tip sites	%	99	99	99	99	99

## 1.3.2 Sewerage Services

#### **Our service goal**

To provide high quality and reliable sewage collection and treatment services that meet health and environmental requirements.

#### What we deliver

- A high quality sewerage service with minimal interruptions and impacts on the community
- Community education and engagement to support non-potable water reuse
- Planning and capital works to improve levels of service and cater for growth
- Assessment of applications to extend and or connect to the sewerage system

#### **Responsible Officer**

Manager - Water and Wastewater

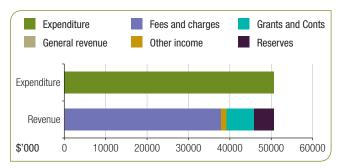

#### What we use to deliver

- 68 Council staff have primary responsibility for providing sewerage services.
- Small to medium sized projects are generally constructed by Council staff
- Major capital works such as upgrades of treatment plants are project managed by Council and undertaken by contractors.

#### How we measure

Key Performance Indicator	Measure	2017–18	2018–19	2019–20	2020–21	2021–22
1 Compliance with NSW Environmental Protection Authority licence requirements	%	100	100	100	100	100

## 1.3.3 Tweed Laboratory

#### Our service goal

To provide a cost effective, reliable, responsive and high quality water and soil testing facility.

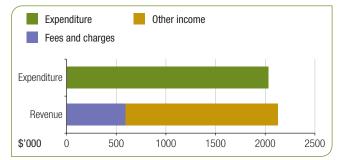

#### What we deliver

- Testing water to ensure it is safe to drink
- Testing water and soil for assessment against environmental
- guidelines/standards
- Testing sewage to meet effluent license conditions
- Commercial user pays service to the public

#### How we measure

## 1.4 Managing Community Growth

### 1.4.1 Strategic Land-use Planning

#### **Our service goal**

Plan for sustainable development which balances economic, environmental and social considerations. Promote good design in the built environment.

#### What we deliver

How we measure

- Preparation, community engagement, assessment and maintenance of the Tweed's Local Environmental Plans, Development Controls Plans and other Strategic Land-use Policy
- Preparation and management of Tweed's built heritage programs and information services
- Preparation and management of Tweed's Aboriginal Cultural Heritage Management Program
- Preparation and management of GIS spatial mapping and data for land-use planning
- · Aligning cross border planning with south-east Queensland

#### **Responsible Officer**

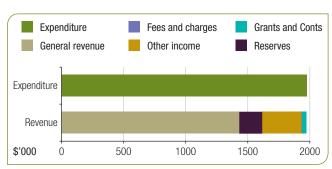

Unit Coordinator - Strategic Planning and Urban Design

#### What we use to deliver

- 8 Council staff have primary responsibility for providing this service
- · Partnering with external agencies and organisations
- Community engagement
- Contracting specialised service providers
- Grant funding and matched grant funding

Making decisions with you *We're in this together* 

WEE

Council and the community working together will shape a better Tweed for the future.

The Tweed is a very proud and diverse community, and understands the importance of open information to enable community participation in steering the direction, decision-making and long-terms goals of the Shire.

Council values these conversations that help to deliver sustainable development outcomes, balancing future population and economic growth with the protection and enhancement of natural, cultural and built environments.

## 2.1 Built Environment

## 2.1.1 Building Certification

#### **Our service goal**

To control and regulate the built environment to achieve good housing design and compliant buildings.

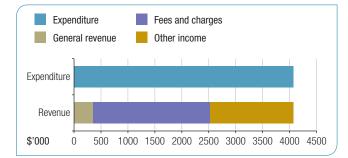

#### What we deliver

- Development assessment in accordance with the NSW Planning framework and Council Policies
- Building and technical advice
- Building and plumbing approvals and inspections for residential and commercial premises
- Community education and engagement on Council Policies safety and sustainability considerations
- Safe building regulation including fire safety, dilapidated buildings, disability access or NSW Fire and Rescue reviews
- Swimming pool barrier certification and regulation (houses and multi residential)

#### How we measure

Key Performance Indicator	Measure	2017–18	2018–19	2019–20	2020–21	2021–22
1 Average time to determine a development application	Days					<50
2 Average time (Officer days) to assess and determine Construction Certificate applications	Days	<15	<15	<15	<15	<15
3 Average time to assess and determine Complying Development Certificates	Days	<15	<15	<15	<15	<15

People, places and moving around *Who we are and how we live* 

Some residents were lucky to be born in the Tweed, others have made the fortunate choice to make this region their home – all of us have a role to play in shaping a safe, liveable community and to respect and value the unique characteristics that make the Tweed so special.

Together we can work to create a Tweed where people are welcomed, healthy and connected, with opportunities to prosper in their individual pursuits.

Council's role is to work to meet the present and future infrastructure demands of the Tweed whilst providing community and cultural services and employment opportunities to retain and improve the quality of community life.

### 3.1.1 Cemeteries

### Our service goal

To develop and maintain Council's cemeteries for the provision of burial and cremation services.

### **Responsible Officer**

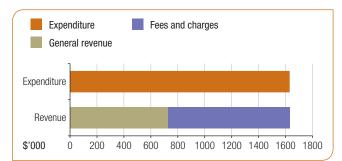

Manager Parks & Active Communities

What we deliver		What we use to deliver				
•	Well maintained and suitable buildings and facilities Burials	•	5 Council staff have primary responsibility for providing this service			
•	Cremations					

### How we measure

Ke	y Performance Indicator	Measure	2017–18	2018–19	2019–20	2020–21	2021–22
1	Number of incidents as a result of incorrect administration or record keeping	#	0	0	0	0	0
2	Customer satisfaction rating	%			Baseline	Maintain	Maintain
3	Number of marketing/awareness initiatives undertaken	#	>6	>6	>6	>6	>6

# Behind the scenes *Providing support to make it happen*

QUIKS

I WEE

To look after the Tweed now and into the future a great deal of work happens behind the scenes to ensure there are planned, resourced, efficient and transparent systems in place to enable our community to function and prosper.

The community expects responsible and transparent decision making with a focus on public conversations and ownership.

Council's role as visionary regional leader, service provider, partner and promoter draws together the skills and resources of other government agencies, businesses and community organisations to contribute to making the Tweed of tomorrow even better than it is today.

## Financials

### Long-term financial plan

Council's Long Term Financial Plan (LTFP) has been developed in accordance with organisational needs and in compliance with the requirements of the Integrated Planning & Reporting Framework of the Department of Planning and Industry (previously the Office of Local Government).

Council's LTFP contains a set of long range financial projections and statements based on an informed set of assumptions concerning Council's budget. It is designed to show the incremental financial impacts on Council's Budget of providing different levels of service and asset delivery. In addition to the expenditure based analysis, the Plan also demonstrates the financial impact on Council's finances from programs of borrowings and alternate funding sources.

Council's current LTFP covers a 10 year time frame from 2021/22 to 2030/31.

The LTFP is a necessary document to assist Council with its process of financial sustainability by documenting, planning and analysing the long term financial impacts on Council's operations from different financial scenarios. A financially sustainable council is one that can meet its funding requirements relative to the provision of its services; this includes the maintenance, renewal and replacement of required assets without operating in deficit for sustained periods of time, without imposing excessive debt on current or future generations and without unplanned rate revenue increases.

The strategic long term financial sustainability aim of Council is to:

- continue its financially sustainability over the long term while at the same time delivering needed services and infrastructure in response to the community's priorities, as identified in Council's Community Strategic Plan
- generate additional funding where possible to address community service priorities as defined by Council's strategic actions and the community survey results and provide improvements to Council assets as identified.

Accordingly, the LTFP is Council's long term financial mechanism to deliver to a financially sustainable platform of services and infrastructure. The LTFP can be viewed on Council's website at <a href="http://www.tweed.nsw.gov.au">www.tweed.nsw.gov.au</a>

### Asset management

Council manages infrastructure on behalf of the community or government. Once created, infrastructure assets generally have long lives, but by their very nature generate ongoing responsibilities and challenges.

Council is confronted by significant issues such as:

- how to meet the increasing demand for new and upgraded infrastructure
- how to retrofit infrastructure to address non-existent, deficient or substandard infrastructure
- how to prolong the life or renew existing infrastructure
- how to pay for it and the associated life cycle costs of maintenance, servicing, renewal, reconstruction
- the effect of ageing infrastructure and reduced funding as a result of rate pegging, cost shifting and escalating costs.

In addition to the creation and or retrofitting of assets, annual maintenance programs are directed towards retaining adequate levels of serviceability of assets but keeping assets to desirable standards is one of local government's biggest financial challenges.

Council has developed an Asset Management Strategy to outline for each asset class:

- Council's current position with respect to Asset Management practice
- Council's future needs with respect to Asset Management practice
- a current maturity level with respect to the Council's position to manage infrastructure assets
- a series of Action Plans on how the Council intends to achieve future needs
- performance monitoring processes.

The Asset Management Strategy can be viewed on Council's website at <u>www.tweed.nsw.gov.au</u>

### Revenue Policy 2021/22

The Revenue Policy and Statement is a key component of the functionality of the Operational Plan and lists Council's Fees and Charges for 2021/2022, including all areas that support the generation of Council's income.

The revenue categories include:

- rates
- annual charges for services
- fees for services
- Commonwealth and State Government grants
- · earnings from investments and entrepreneurial activities
- borrowings
- other revenues, including income from the sale of assets.

The Revenue Policy can be viewed at Council's website on <a href="http://www.tweed.nsw.gov.au">www.tweed.nsw.gov.au</a>

### 2021/22 budget summary

The 2021/2022 budget has been prepared using the previous year's Long Term Financial Plan as a base, adjusted for known variations and new demands.

The \$254 million budget is made up of 3 funds:

General \$153 million

Sewer \$51 million

Water \$50 million

### Income and expenditure commentary

### Rates and annual charges

For 2021/22, the Independent Pricing and Regulatory Tribunal has set the rate peg at 2.0%.

According to IPART, "The rate peg is mainly based on the Local Government Cost Index (LGCI), which measures price changes over the past year for goods, materials and labour used by an average council."

For further detail, refer to Council's Revenue Policy.

### User charges and fees

Generally, user charges and fees have been set to increase by 5%, although there are exceptions where individual fees have been assessed and will increase at a different rate. Some fees are prescribed by the State Government, with Council having no discretion in the setting of those fees.

For further detail, refer to Council's Fees and Charges document.

### Interest and investment revenue

Council's estimated interest investment revenue for 2021/2022 is \$5.9 million.

Interest on overdue rates, charges and deferred debts is budgeted at \$33,000

Council's diversified portfolio of bonds, term deposits and floating rate notes is managed in-house with the goal of maximising returns whilst maintaining a minimal level of risk and complying with the State Government's Ministerial Order.

Over 90% of invested funds are restricted and not available for general expenditure. Major restrictions are Water, Sewer, Waste and Holiday Park funds, developer contributions, reserves, and unexpended loans and grants.

### Grants and contributions revenue

A conservative approach has been taken when budgeting for grants and contributions revenue. The Financial Assistance grant of \$11 million is forecast to grow at 1% per year. Over many years this grant has proven impossible to predict.

Generally, only known future grants are included in the forward projections, with the exception of grants which have been reliably received over a long period of time. For the first time this year, provision in the roads budget had been made for future unconfirmed grants. The related expenditure budgets are noted as being conditional upon the grants being confirmed.

Developer contributions are assumed to generally remain static. This income is held as a restricted asset until recouped to fund projects and/or debt servicing of past projects.

### **Employee costs**

As at April 2021, Council employed over 700 full time equivalent staff.

Employee-related costs, which include salaries, entitlements, insurance, taxes, travel and training costs, are estimated to be in the region of \$68 million.

It is assumed that employee costs will grow at a rate of between 2% and 2.5% over the next 10 years. This includes anticipated award increases and growth through salary progression.

### **Borrowing costs**

Council's loan portfolio of \$125 million generates an interest expense of \$8.4 million per year, progressively reducing as the overall debt is paid down over time.

The annual borrowing program averages around \$2 million, and focuses on renewing major infrastructure such as bridges and stormwater drainage, as well as flood mitigation works and public toilet renewals.

Principal repayments range from \$7 million to \$9 million.

#### Reserves

Council has a number of reserves which represent cash that is restricted for a specific purpose, usually to fund future expenditure.

Major transfers to reserves are:

Holiday Parks surplus	\$1.5m
Waste	\$5.0m
Water	\$11.6m
Sewer	\$16.8m
Major transfers from reserves are:	
Waste	\$10.3m
Water	\$6.8m
Sewer	\$4.7m

Major Capital Expenditure items 2021/22

Capital expenditure totalling \$45 million is included in the budget. Major items are:

Waste transfer station infrastructure	\$4.9m
Kings Forest sewer rising main	\$2.3m
Clarrie Hall Dam raising	\$2.2m
Water supply link to City of Gold Coast	\$2.2m
Eviron landfill wetland and leachate pond	\$2.0m

### **Capital Works**

Council's Capital Works program for 2021/22 is \$64.768m including major works on roads, drainage, waste facilities, water and sewerage.

## Financial assistance contributions to the community

Tweed Shire Council Provides financial assistance contributions to the community via the following Policies:

### **Donations (Financial Assistance)**

Tweed Shire Council recognises a need to assist community organisations and individuals that are interested in and working towards the enhancement and the wellbeing of its residents. Council advertises twice yearly in the Tweed Link inviting applications under its Donations (Financial Assistance) Policy. A panel comprising two senior Council officers and the Mayor reviews applications to determine eligibility and make recommendations to Council.

### **Festivals and Events Policy**

The Tweed Community Strategic Plan identifies the vision for the Tweed is to be recognised for its desirable lifestyle, strong community, unique character and environment and the opportunities its residents enjoy. Events of all shapes and sizes contribute to achieving that vision through supporting community life, strengthening the economy and promoting caring for the environment.

The provision of financial assistance and in kind support to festivals and events supports the overall aims of Council and those objectives identified in Council's Events Strategy. Applications are assessed in relation to the Events Strategy and Council's broad objectives and plans. In kind support from Council can include: the loan of equipment, assistance with services to events held on Council administered land and assistance to events with notifications to residents and promotions through the Tweed Link and the Contact Centres.

### Tweed Local Heritage Assistance Fund

As part of Council's ongoing heritage management, Local Heritage Assistance Fund grants are available for owners of heritage items and properties within a heritage conservation area listed in the Tweed Local Environmental Plan (LEP).

Grants operate on a financial year timeframe.

### Financial assistance to licensed not-for-profit native animal welfare groups

This policy establishes principles to enable financial assistance, on an annual basis, to be provided to licensed not for profit groups who provide care and rehabilitation to injured native wildlife. Consideration is given to the allocation of funding in accordance with the number or variety of native species that each group is licensed to provide assistance. As an indication, base line funding for the care and rehabilitation of one species may commence at \$2,500 per annum, to a maximum of \$5,000 per annum to groups licensed in providing services to more than one native species.

The total value of financial assistance planned for 2021/22 is summarised in the below tables:

### Monetary payments

Recipient	Description	Amount (\$)
Various	Donations Policy Funding (A0018)	42,207
Various	Festival & Events Policy Funding (A0544)	78,620

Provision of Labour and/or Plant & Equipment	10,000
Goods and/or Materials	100,000
Payment of Rates	31,990
Tweed Link Advertising	3,000
Room Hire	45,000
Total	454,220

## Connections to other plans

Plans from other levels of government provide council with a point of reference for identifying relevant issues to consider for inclusion in the Community Strategic Plan. Council has chosen to directly link the service streams in the Community Strategic Plan with priorities found in NSW – Making it Happen (A summary of the priorities is contained within the attachments to this Plan) to clearly explain the connection between State and local planning.

The full document can be viewed at www.nsw.gov.au/premiers-priorities

As Council has a diverse number of roles including being a: Leader, Provider, Advocate and Collaborator, across a variety of program areas, it is important that the work Council undertakes ensures a balance of social, environmental, economic and good governance principles. This approach is called a Quadruple Bottom Line framework with a focus on sustainable development and good management. Council has linked its service streams to these quadruple bottom line principles.
