OrthoView aerial photography (2001), cadastral and topographic data under licence to RTA by Department of Lands.

Retention of the existing pedestrian/cyclist bridge.

Existing highway maintained for local traffic, with full movements re-instated at a 4-way signalised intersection at Laura and Short streets.

A signalised intersection incorporating all movements between Minjungbal Drive, Darlington Drive, the Pacific Highway (north) and the local access road.

Deep cutting with vertical walls up to 20 metres high through Sexton Hill.

Northbound off-ramp direct to Minjungbal Drive.

Six lane dual carriageway highway upgrade to 100 km/h standard.

Upgrade links to four-lane Tweed Heads bypass.

100 metre land bridge ensuring retention of Wilson Park.

The new highway alignment, generally to the east of the existing route.

Access to be determined during further refinement of design.

A 300 metre (approximate) extension of Minjungbal Drive, passing below the highway upgrade and connecting to Darlington Drive.

Southbound on-ramp direct from Minjungbal Drive.

Existing ramp may be closed in the long term to maintain safety and traffic flow.

Southbound off-ramp and northbound on-ramp connecting to the Tweed Heads bypass from the Darlington Drive intersection.

Northbound off-ramp and southbound on-ramp at the southern end, connecting to the existing highway route.

Proposed pedestrian/cycleway to be finalised during design refinement.

A viaduct across the southern valley, approximately 360 metres in length.

Six through lanes on the upgraded highway.

Existing ramps to be closed.
