## Executive Summary

The 2016/17 Budget amounts are as follows:

	\$000
General Fund	\$125,807
Sewer Fund	\$43,825
Water Fund	\$45,226
Total	\$214,858

and have been based upon increases in expenditure & income of:

Item	Indexation
Employee costs	2.75%
Materials and Contracts	2.75%
Electricity costs	2.0% (excluding street lighting)
Insurance	2.00%
Rates	Approx 1.8% for Minimum rate

### Major Projects

See Infrastructure Program in Delivery Program/Operational Plan document.

Note: due to rounding, some totals may not agree to the sum of the figures that comprise them.

### Economic Impact

As at 2015, the Gross Regional Product of the Tweed Shire was \$2.885 billion. Tweed Shire Council expects to spend approximately \$150 million in 2016/17, on employee costs, goods and services, utilities and other expenses.

Total impact of \$150m on the economy.

Output (\$m)*	Value added (\$m)**	Wages & Salaries (\$m)	Local jobs
414.59	191.32	178.24	2,622

\* Output by industry

Output is the gross sales of an industry, which includes the cost of inputs to that industry. To the extent that outputs from one industry are used as inputs to another, the economic productivity of an industry may be counted multiple times in output, which is why output totals generally appear much higher than value add or GRP.

Output data are derived from ABS State Accounts, distributed among regions by industry according to estimates of industry value-added, Census and ABS Labour Force based employment and industry earnings data from the Australian Taxation Office. An estimate of labour productivity is derived from ATO data from each region and applied to the industry workforce.

Please note that these modelled estimates are subject to change.

Estimates are reviewed when more recent and robust data becomes available, particularly when new National or State Accounts data are released by the ABS, or new tax office income data are released. Most recent financial year estimates are based on a combination of factors including Centrelink and Labour Force Survey data, which is replaced by ATO income data when it becomes available. As a result of this, revisions to the model for all years may be expected, and large revisions for the last two financial years are possible, when the new data are released each November, for the previous financial year. These revisions could change the statistical outcomes, so please treat the most recent years' data with caution.

**\*\* Value-add by industry** Value-added is the value of sales generated by each industry, minus the cost of its inputs. Estimates are modelled using the NIEIR methodology, and presented in constant dollars (adjusted for inflation). It is calculated by subtracting the cost of industry inputs from total sales generated.

The total of all industry value-adds are summed to produce Gross Regional Product figures, which also include an estimate for the ongoing value of ownership of dwellings in the area.

Value added data are derived from ABS State Accounts, distributed among regions by industry according to estimates of industry value-added, Census and ABS Labour Force based employment and industry earnings data from the Australian Taxation Office. An estimate of labour productivity is derived from ATO data from each region and applied to the industry workforce.

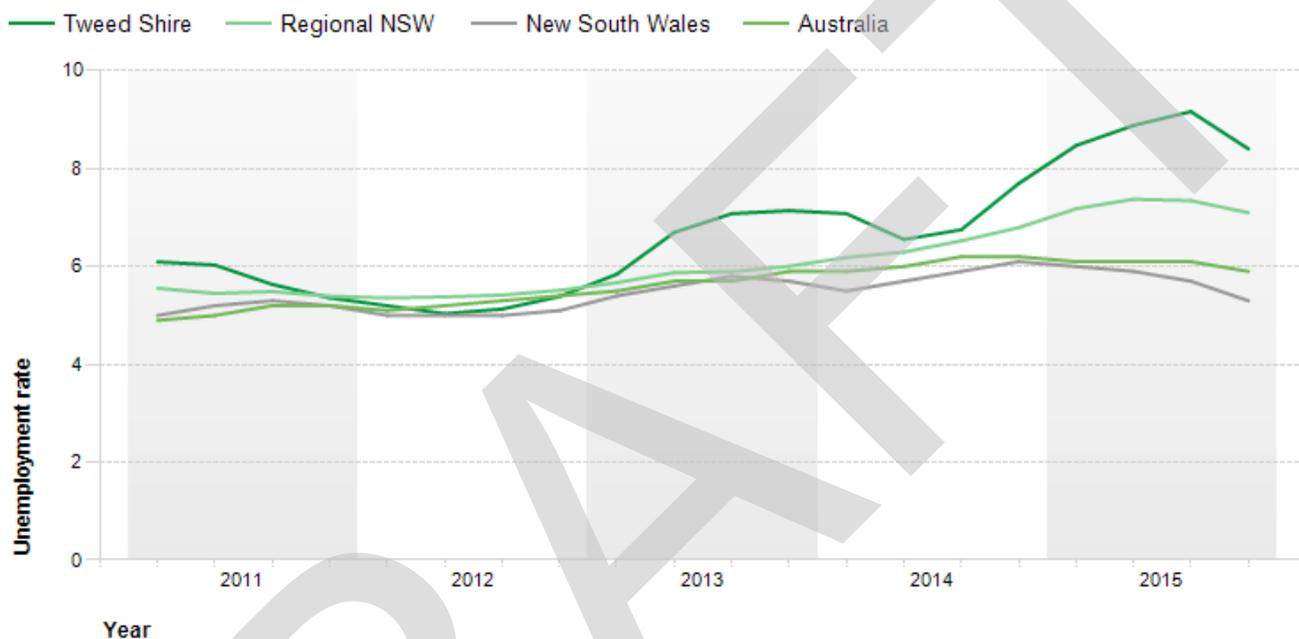

Please note that these modelled estimates are subject to change. Estimates are reviewed when more recent and robust data becomes available, particularly when new National or State Accounts data are released by the ABS, or new tax office income data are released. Most recent financial year estimates are based on a combination of factors including Centrelink and Labour Force Survey data, which is replaced by ATO income data when it becomes available. As a result of this, revisions to the model for all years may be expected, and large revisions for the last two financial years are possible, when the new data are released each November, for the previous financial year. These revisions could change the statistical outcomes, so please treat the most recent years' data with caution.

## Economic Health of Tweed Shire

### Business Activity

Category	Year	Tweed	Australia
Total number of businesses (no.)	2015	6585	2,141,382
Number of employing businesses: 5 or more employees (no.)	2015	729	320,360

### Quarterly unemployment rate

**Social disadvantage**

Tweed Shire SEIFA Index of Disadvantage measures the relative level of socio-economic disadvantage based on a range of Census characteristics. The index is derived from attributes that reflect disadvantage such as low income, low educational attainment, high unemployment, and jobs in relatively unskilled occupations.

A higher score on the index means a *lower* level of disadvantage. A lower score on the index means a *higher* level of disadvantage.

**Index of relative socio-economic disadvantage****Local Government Areas**

	<b>2011 index</b>
Australia	1002.0
New South Wales	995.8

### Housing Stress

Housing Stress is defined as per the NATSEM (National Centre for Social and Economic Modelling) model as households in the lowest 40% of incomes who are paying more than 30% of their usual gross weekly income on housing costs.

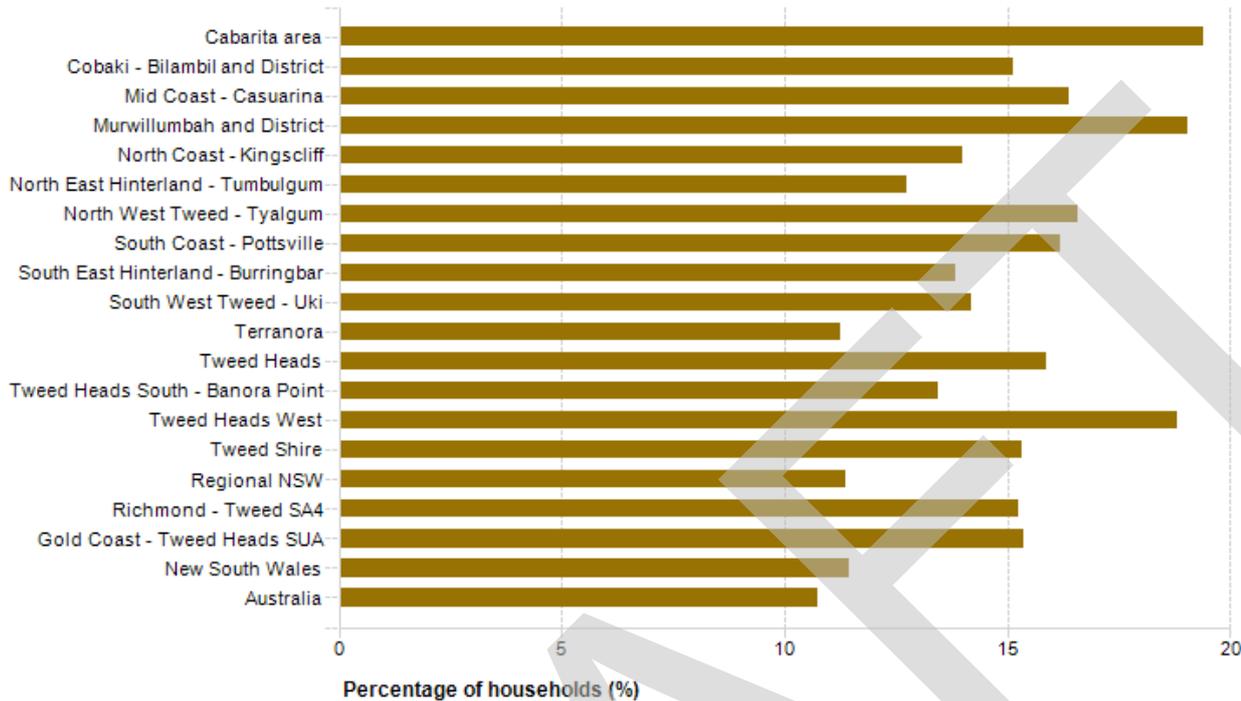

Housing affordability is a significant issue if mortgage and rent payments rapidly increase as a share of income. While stress can be highly dependent on individual circumstances, using Census data to analyse this provides a good overview of the problems, and highlights any areas in Tweed Shire where households may be having problems meeting their commitments.

#### Housing stress, 2011

<b>Tweed Shire - Enumerated</b>				
	<b>Area</b>	<b>Number</b>	<b>Total households</b>	<b>Percent %</b>
	Cabarita area	254	1,310	19.4
	Cobaki - Bilambil and District	235	1,554	15.1
	Mid Coast - Casuarina	164	1,004	16.4
	Murwillumbah and District	719	3,779	19.0
	North Coast - Kingscliff	536	3,831	14.0
	North East Hinterland - Tumbulgum	134	1,050	12.8
	North West Tweed - Tyalgum	178	1,070	16.6
	South Coast - Pottsville	443	2,736	16.2
	South East Hinterland - Burringbar	165	1,191	13.8
	South West Tweed - Uki	130	918	14.2
	Terranora	101	897	11.3
	Tweed Heads	596	3,753	15.9

## Housing stress, 2011

■ Tweed Shire

Source: Australian Bureau of Statistics, Census of Population and Housing, 2011 (Enumerated data)  
Compiled and presented in atlas.id by .id, the population experts.

**.id**  
the  
population  
experts

In 2011, 15.3% of Tweed Shire's households were experiencing housing stress compared to 11.4% in Regional NSW.

While Tweed Shire had a higher proportion of households experiencing housing stress, it is important to note that this varied across the Shire. Proportions ranged from a low of 11.3% in Terranora to a high of 19.4% in Cabarita area. The five areas with the highest percentages were:

- Cabarita area (19.4%)
- Murwillumbah and District (19.0%)
- Tweed Heads West (18.8%)
- North West Tweed - Tyalgum (16.6%)
- Mid Coast - Casuarina (16.4%)
