Dear Mr Keenan

RE: Structural Reform Business Case: Rous Water, Richmond River County Council, Far North Coast Weeds

At the NOROC Ordinary meeting held on 4 May 2012 NOROC considered the final report *Structural Reform Business Case: Rous Water, Richmond River County Council, Far North Coast Weeds*.

The resolution from the meeting was:

1. That NOROC advise Rous Water, FNC Weeds and Richmond River County Council that it supports the reform option 7 as outlined in the structural reform report produced by UTS.
2. That this report be referred to NOROC member councils for their concurrence or otherwise.

If possible would you please be able to put this item in the June business paper for the consideration of the Tweed Shire Council? Could you also then advise NOROC of your council's position on reform option 7? I am hoping this matter will then be able to be discussed at NOROC's August meeting.

Yours sincerely

Ann Lewis
Executive Officer
